# *The “Voice of a Generation”*

# Christina Aguilera

## *at Mallorca Live Festival*

*Since 1992, Christina Aguilera has built herself a sensational career that has spanned generations and earned her the title of “global superstar”. The power of her vocals has propelled her to international stardom around the globe and her record sales have topped some 75 million worldwide in both English and Spanish. Now, residents in the Balearics are gearing up to welcome her to our shores as one of the headline acts of the Mallorca Live Festival on 24, 25, and 26 June.*

*By Ben Mulvey*

“The little girl with the big voice” was born in New York City and raised in Pennsylvania and soon began to be noticed for her vocal abilities by talent shows and scouts in her local area. Opening stadiums and singing the national anthem at baseball and football matches led to her big break on The Mickey Mouse Club, starring alongside future stars, Ryan Gosling, Britney Spears, and Justin Timberlake. In 1994, when the show was cancelled, Christina continued her singing career in Japan by recording the song “All I Wanna Do” with Japanese singer, Keizo Nakanishi, before bursting back onto the international stage upon her return to the US after auditioning to sing the title song “Reflection” for Disney’s *Mulan*.

The success of “Reflection” caught the attention of RCA Records who, encouraged by the teen-pop craze that had taken the world by storm with the likes of Britney Spears, saw an opportunity to propel Christina to the same levels of stardom. Her debut single “Genie In A Bottle” was released in 1999 and peaked at the top of the Billboard 100 chart and on the charts of twenty other countries. The album quickly followed and reached number one on the US Billboard 200, was certified eight times platinum by the Recording Industry Association of America and sold 17 million copies worldwide. Three other successful singles including “What a Girl Wants”, “Come On Over Baby (All I Want Is You)”, and “I Turn to You” were released from the album and became just as successful.

Remaining at the top of her game in the teen-pop genre, Christina made a brave career move by appearing in the video of the cover of “Lady Marmalade” with Pink,

Mya and Lil Kim, a huge step away from her squeaky-clean image of the girl-next-door. Her label was unhappy with the move as it featured Christina and the other artists dancing provocatively in raunchy outfits, but it soon proved a success as it flew to the top of the charts and won Best Pop Collaboration with Vocals at the 44th Annual Grammy Awards. The success of this career move gave Christina the courage to change her image and make more artistic decisions for herself.

In 2003, “Stripped”, Christina’s fourth album was released and was met with a massive shift in public opinion with many believing that her new raunchy image and sexualised videos were inappropriate. In an interview, Christina stated that the title represented “a new beginning, a re-introduction of [herself] as a new artist in a way”. She served

as the album’s executive producer and co-wrote most of the songs. To introduce her new persona, Aguilera released “Dirrty” as the lead single from the album in September 2002. She defended her new image in the press by saying: “I’m in the power position, in complete command of everything and everybody around me. To be totally balls-out like that is, for me, the measure of a true artist.”

By 2006, *Stripped* had sold over 12 million copies worldwide. The second single from the album, “Beautiful”, received universal acclaim for its powerful lyrics about embracing inner beauty and became an anthem for the LGBT community. It became the album’s best-charting single, peaking at number two on the Billboard Hot 100 and won Best Female Pop Vocal Performance at the 46th Annual Grammy Awards in 2004.

In 2010 Christina took a break from music and tried her hand at acting, something that was rather risky decision considering that many of her peers had released films that had turned into box office flops. Her debut film “Burlesque” alongside Cher was met with mixed reviews by critics but Aguilera’s acting was praised and award nominations soon followed. Going back to music, Christina released a couple of albums that were well-received well around the world.

From April 2011 to December 2012, Aguilera became as a judge and coach on the first three seasons of the television series *The Voice*. During the first season, Christina was featured on Maroon 5’s single “Moves like Jagger” with the group’s lead vocalist and fellow *The Voice* coach Adam Levine. The single peaked atop the Billboard

Hot 100 and was certified diamond by the Recording Industry Association of America and became one of the catchiest songs of the year.

Going back to her Ecuadorian roots, Christina released her ninth studio album in Spanish and released it in three parts, with the first being an extended play titled “La Fuerza” released on January 21, 2022. It would be her first Spanish album in 22 years and was well-received in Latin America, Spain and around the world.

With cancelled concerts and events a common occurrence over the last two years due to the pandemic, Christina is now delighted to be back on the road and appearing at events and concerts around the world such as Pride in Los Angeles, Dubai World Expo...and our very own Mallorca Live Festival!

Mallorca Live Festival has gone from strength to strength over the last few years with world-renowned artists taking to the stage. This year the huge festival takes place on the 24th, 25th and 26th of June in Magaluf and Christina Aguilera is booked to perform as the headline act on the 25th alongside global superstars Franz Ferdinand and Supergrass. The next day, Muse are the headliners with a huge list of other artists from around the world - there really is something for every musical taste. Mallorca Live Festival will be Christina’s first time on the island and is certainly one of the biggest names to have performed here in the last few years. Her performance is no doubt set to be an incredible experience as she always brings plenty of effects, dance routines and of course her incredible vocals to any of her shows. Let’s hope that she performs plenty of her well-known hits in both English and Spanish for her loyal fans to dance and sing along with.

Mallorca Live Festival is taking place on 24th, 25th and 26th June in Magaluf with tickets starting from €59 per day. For more information visit <https://mallorcalivemusic.com/>.

## La “Voz de una Generación”: Christina Aguilera en el Mallorca Live Festival

Desde 1992, Christina Aguilera se ha forjado una sensacional carrera musical que traspasa generaciones, habiéndose ganado el título de “superestrella mundial”. La potencia de su voz la ha encumbrado a los más altos niveles, con ventas de más de 75 millones de discos en inglés y en español por todo el planeta. Ahora se preparan los residentes en Baleares para darle la bienvenida como una de las estrellas del Mallorca Live Festival el 24, 25 y 26 de junio.

“La niña pequeña con la voz tan grande” nació en la ciudad de Nueva York y se crio en Pennsylvania. Sus habilidades vocales pronto atrajeron la atención de los shows de talento y cazatalentos de su región. Tras actuar en las inauguraciones de los estadios y cantar el himno nacional en partidos de béisbol y fútbol, su fama se consolidó con el programa The Mickey Mouse Club, junto a futuras estrellas como Ryan Gosling,

Britney Spears y Justin Timberlake. En 1994, cuando cancelaron el programa, Christina continuó con su carrera como cantante en Japón, donde grabó la canción “All I Wanna Do” con el cantante japonés Keizo Nakanishi, tras lo cual irrumpió en la escena internacional al volver a EEUU al haber sido elegida para cantar el tema “Reflection” de la película de Disney, Mulan.

El éxito de “Reflection” sedujo a RCA Records quienes, alentados por la locura pop adolescente que arrasaba en aquel momento con cantantes como Britney Spears, vieron la oportunidad de elevar a Christina a esos mismos niveles de estrellato. Su single “Genie In A Bottle” se lanzó en 1999 y pronto estuvo a la cabeza del Billboard 100 ranking, así como los de otros países. El álbum alcanzó el primer puesto en el US Billboard 200, fue certificado ocho veces disco de platino por el Recording Industry

Association of America y se vendieron 17 millones de copias en todo el mundo. Otros tres singles del álbum - "What a Girl Wants", "Come On Over Baby (All I Want Is You)" y "I Turn to You" - asimismo cosecharon un éxito rotundo.

Líder indiscutible en el segmento del género teen-pop, Christina tomó la valiente decisión de aparecer en el video de "Lady Marmalade" con Pink, Mya y Lil Kim, un paso bastante alejado de su intachable imagen de chica de al lado. Su discográfica no estaba contenta con este paso, ya que Christina aparecía junto a las otras artistas bailando de forma provocadora y luciendo indumentaria muy atrevida, pero enseguida fue un gran éxito que ganó el premio Best Pop Collaboration with Vocals en los 44 Premios Grammy. El éxito de esta estrategia animó a Christina a cambiar su imagen y a tomar más decisiones artísticas por sí misma.

En 2003 salió al mercado "Stripped", el cuarto álbum de Christina, que fue objeto de muchas críticas por su nueva y provocativa imagen y sus videos de carácter sexual. En una entrevista, Christina comentó que el título simbolizaba "un nuevo inicio, un reconocimiento de sí misma como renovada artista". Fue productora ejecutiva del disco además de componer muchos de los temas. Para presentar su nueva imagen, Aguilera lanzó "Dirrty" como single en septiembre 2002. Defendió su nueva imagen en los medios diciendo: "Ocupo un puesto de poder, con un control absoluto sobre todo y todos a mi alrededor. Atreverse y arriesgarse de esta manera es, para mí, una muestra de mi talla como artista".

En 2006, Stripped había vendido más de 12 millones en el mundo. El segundo single del álbum, "Beautiful", fue acogido con gran éxito por su ponderosa letra sobre la belleza interior y se convirtió en himno de la comunidad LGBT. Fue el tema más exitoso del disco, alcanzando el puesto n° dos del Billboard Hot 100 y ganando el Best Female Pop Vocal Performance en los 46 Premios Grammy en 2004.

En 2010 Christina se tomó un descanso de la música para probar suerte con el cine, decisión un tanto arriesgada dado que muchos de sus colegas habían hecho películas que resultaron ser fracasos de taquilla. Su primera película, "Burlesque", que protagonizó junto a Cher, fue objeto de críticas diversas, pero la actuación de Aguilera fue elogiada y reconocida en varias nominaciones. En cuanto a la música, Christina lanzó en este tiempo un par de discos que fueron bien recibidos en el mundo entero.

De abril 2011 a diciembre 2012, Aguilera fue juez y coach en las tres primeras temporadas del espacio de TV "La Voz" en EEUU. Durante la primera temporada, Christina cantó en el single de Maroon 5 "Moves like Jagger" con el vocalista líder y compañero en el programa, Adam Levine. El single encabezó el ranking Billboard Hot 100 y certificado disco de diamante por el Recording Industry Association of America, convirtiéndose en uno de los temas más pegadizos del año.

Honrando sus raíces ecuatorianas, Christina lanzó su noveno álbum en español, que sacará al mercado en tres partes; la primera,

un extended play titulado "La Fuerza" que vio la luz el 21 de enero de 2022. Se trata de su primer disco en español en 22 años y ha sido muy bien acogido en América Latina, España y el resto del mundo.

Tras los conciertos cancelados en los dos últimos años de la pandemia, Christina está encantada de poder volver a actuar en eventos y conciertos en todo el mundo tales como Pride en Los Angeles, Dubai World Expo... ¡y en nuestro Mallorca Live Festival! Mallorca Live Festival ha ido adquiriendo cada vez más fuerza en los últimos años con actuaciones de artistas de renombre. Este año tendrá lugar los días 24, 25 y 26 de junio en Magaluf y Christina Aguilera actuará el 25 junto a las estrellas mundiales Franz Ferdinand y Supergrass. Al día siguiente actuará Muse, junto con otro elenco de artistas de todo el mundo - habrá algo para todos los gustos musicales.

Mallorca Live Festival será la primera vez que Christina actúa en la isla y una de las estrellas de más categoría que han cantado en Mallorca en los últimos tiempos. Su actuación será, sin duda, una experiencia increíble, ya que siempre incluye efectos especiales, bailes y, naturalmente, su potente voz. Esperemos que cante muchos de sus éxitos en inglés y español para que sus incondicionales puedan cantar y bailar con ella.

Mallorca Live Festival tiene lugar los días 24, 25 y 26 de junio en Magaluf. Precio de las entradas desde 59 euros por día. Para más información visita <https://mallorcalivemusic.com/>.

## IBIZA ROCKS – SPOTLIGHT

By Paul Christian

The magical island of Ibiza has around 10 hours of sun a day and 57 different beaches with the average temperatures above 20 degrees for over eight months of the year and the island hosts some of the biggest parties by the world's leading DJs and concerts for leading edge Music Artists.

The dates of the various cultural and music festivals are relentless with dates still incoming that include gastronomic events, the Ibiza Gay Pride, the Ibizacine film festival and the International electronic music festival.

Sueños de Libertad the acclaimed music festival will have its sixth anniversary this year between 28 June and 2 July. Bloop Festival remains the proactive art festival that blends great murals with music and technology will also be celebrating its twelfth anniversary from 1-20 August. The renowned Eivissa Jazz Festival will reintroduce five days of concerts in its 34th anniversary and takes place between 30 August and the 3 September.

This Summer also brings the return of the legendary Craig David's TS5 at Ibiza Rocks,

the epitome of the daytime pool party phenomenon that has taken Ibiza by storm in recent years. This will be his third-year residency with an extended 12 week run from 10 July. In an exclusive interview he shares:

“Do you know what, there's never a day that, that feeling when people are singing the words back to certain songs and you know that they're not just singing it out to me; those songs mean something to them, they're timestamps in their life and they remember that song and they remember that moment with the friend they are next to or friends they were with. And I never take it for granted; weirdly enough it feels like the first time, every time. Like when I walk on stage and you're just like, who would have known that this kid who was making these songs would have this response so many years later and that they would mean so much to people. So for me, that's why every time I jump on stage I'm really like a little kid, like, in a toy shop, just like, wow this is amazing, and I've actually got some songs that I can actually play that people know, it's

wicked”

The concept of the pool party is a relatively new phenomenon, the market continues to evolve and what the majority of the younger Ibiza crowd want now is pool parties during the day:

“They want to come and enjoy this moment when the sun is shining and hear good music. I just think that all we've done is just elevated what a pool party really is. I've been to all the places on the island, it's just different, and now it's like wow we've got something very special here”

And what does Craig David like most about Ibiza?

“There's a real magic to the island. I know people say that for a lot of different reasons, but I can feel the spiritual, meditative side of it. The energy of the island when you step in you feel like something's resonating and that you're in the right place as a human being. And then there's the other side of it, obviously there's the beautiful culture and the food and people, and there's beautiful places. On the music side of things there's just something about the culture and the people love music in so many different ways here and I think that the greatest thing over the last couple of years is that R&B and Hip Hop and more slightly alternative styles of house music and EDM are starting to really infiltrate in some way, so the mix up is great. But yes, I love coming here, it's wicked”

In 2022 there really is so much to choose from in Ibiza for music lovers of all tastes, styles and venues, it's going to be an unforgettable summer. When the bassline drops you'll need more than 7 days to rise and fall, there's nothing like this. So before walking away fill me in for a rewind rendezvous with who you are, what's your flava ain't giving up anytime soon!

La isla mágica de Ibiza cuenta con 10 horas de sol al día y 57 playas con temperaturas medias por encima de los 20° durante ocho meses del año, y en ella se organizan las fiestas más grandes con los mejores DJs del mundo y conciertos de artistas musicales punteros. Ya son incontables las fechas de los muchísimos eventos culturales y musicales, gastronómicos, el Orgullo Gay Ibiza, el festival de cine Ibizacine y el festival internacional de música electrónica.

‘Sueños de Libertad’, el afamado festival musical celebra su sexto aniversario este año entre el 28 junio y 2 julio. Bloop Festival sigue siendo el festival de arte proactivo que combina grandes murales con música y tecnología y este año celebra su 12° aniversario entre el 1 y el 20 de agosto. El conocido Eivissa Jazz Festival prevé organizar cinco días de conciertos para celebrar su 34° aniversario, entre 30 agosto y 3 septiembre.

Este verano también trae consigo el retorno del legendario TS% de Craig David en Ibiza Rocks, la personificación del fenómeno de la pool party que arrasa en Ibiza en los últimos años. Esta será su tercera residencia como DJ con una duración de 12 semanas a partir

del 10 de julio. Comenta en una entrevista: “¿Sabes qué? No hay un día en que no sienta lo maravilloso que es escuchar cuando la gente canta las letras de ciertas canciones, y sé que no me las cantan a mí; estas canciones significan algo para ellos, marcan momentos icónicos en sus vidas y cuando las cantan recuerdan con quien estaban. Y nunca lo doy por sentado: es extraño, pero siempre me siento como si fuera la primera vez. Como cuando salgo al escenario y me pregunto que quién hubiera dicho que aquel chico que componía canciones conseguiría todo esto y que las canciones iban a significar tanto para tanta gente. Para mí, cada vez que salto al escenario me siento como un chiquillo en una juguetería... alucinando que tengo canciones que puedo tocar y que la gente conoce. ¡Increíble!”

El concepto de la pool party es un fenómeno relativamente reciente; el mercado evoluciona y los que el público más joven de Ibiza quiere son pool parties durante el día: “Quieren venir a disfrutar bajo el sol y escuchar buena música. Creo que lo único que hemos hecho es darle un giro a lo que es una pool party. He estado en todos los sitios en la isla... y es diferente... Ibiza tiene algo

muy especial.”

¿Y qué es lo que más le gusta a Craig David de Ibiza?

“Hay una magia en la isla. Sé que la gente dice esto por muchas razones distintas, pero yo siento que hay un aspecto espiritual, contemplativo. La energía de la isla se siente en tu interior y sabes que estás en el lugar correcto como ser humano. Y luego está la otra cara, su maravillosa cultura, la comida y la gente y los hermosos lugares. En cuanto a su faceta musical, me encantan las distintas formas en que la gente ama aquí la música y creo que lo mejor que ha sucedido en los dos últimos años es que el R&B y el Hip Hop y otros estilos más alternativos de música y de EDM están infiltrándose poco a poco, así que la mezcla es fantástica. Sí, me gusta venir aquí, es genial.” En 2022 hay tanto de donde elegir en Ibiza para amantes de la música de todos los estilos y gustos... será un verano inolvidable. Así que escucha “When the bassline drops you’ll need more than 7 days to rise and fall, there’s nothing like this. So before walking away fill me in for a rewind rendezvous with who you are, what’s your flava ain’t giving up anytime soon!”

# MEET LAUREN MACKIN - THE NEW GENERATION OF COCO'S DELI

*Lauren Mackin is well known on the island - and indeed elsewhere around the world - for her YouTube channel, @JustAmyLauren, on which she publishes her "Workouts with a View". Following the success of her channel and to offer her followers on the island a more rounded experience, Lauren has recently taken over Coco's Deli in Portals Nous. I sat down with her to find out a bit more about what she does and what made her take the plunge to buy a business on the island...*

By Ben Mulvey

From a quick glance through Lauren's Instagram page, it is clear to see that she is not one to sit still. Combining fitness, travel and food to build a brand that she lives and breathes, her several thousand followers are keen to know what she is up to. Her "Workouts with a View" have taken place in beautiful locations around the world and are designed to give her followers all of the workouts they need but with an inspirational background to enjoy.

"I wanted to do something different with my workouts. Anyone can place a yoga mat and a camera down but I think it's important to do something different and something that inspires people", she tells me. "Why not work out somewhere stunning?"

Lauren's YouTube channel has something for everyone and is designed to help people of any fitness level. You can do as much or as little as you want of her workouts, the important thing is that you are doing them and Lauren's positive can-do attitude is undoubtedly guaranteed to spur you on.

As someone who struggles to motivate himself to exercise or eat healthily, it is often difficult to watch these types of videos without feeling bad about not doing more but Lauren has an approachable and empathetic way of speaking to her clients and her audience that doesn't come across as patronising. She cares about what she does and believes that the mental health benefits of exercise can often far outweigh the physical ones.

So how did Lauren decide to go from YouTube exercise guru to cafe owner?

Coco's Deli has been established in Portals Nous for over six years and has become the go-to lunch spot for those looking for something wholesome and nutritious but also delicious and home-cooked. Lauren was one of these people that spent many an afternoon working from the terrace whilst chatting to the previous owner, Chloe, and managing her Instagram and YouTube pages. When Chloe decided to sell the business, Lauren jumped at the chance to own her favourite spot on the island.

**"Nutrition and exercise are so important, and it sounds obvious, but they really do go hand-in-hand," she says.**

Since taking over, Lauren hasn't changed huge amounts as everything was good to go and working well as it was. A few personal touches show her personality, and the smoothie menu now includes some of her own unique creations and there are some new dishes on the menu. The usual breakfasts, healthy lunches and snacks are still very much part of the draw to Coco's and locals and visitors alike will continue to flock there for a healthy treat, a chat with Lauren or even a cuddle with her cute dog, Tyga!

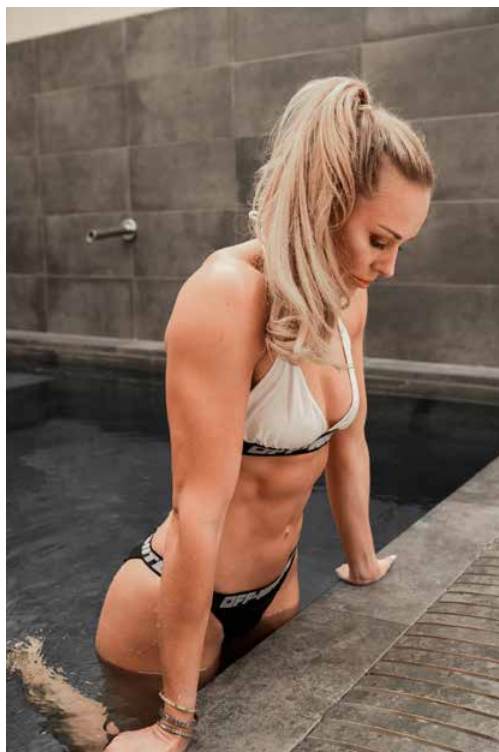

Follow Lauren @JustAmyLauren on YouTube and Instagram.

Visit Coco's Deli on Monday-Friday between 9.00-16.30, Saturday from 9.30-15.00 and Sunday from 10.00-15.00. Check out some of their food on their Instagram @cocosdeli or send them a message to order your takeaway.

## TE PRESENTAMOS A LAUREN MACKIN – LA NUEVA GENERACIÓN DE COCO'S DELI

Lauren Mackin es muy conocida en la isla – y, de hecho, en el mundo entero- por su canal de YouTube @JustAmyLauren, en el que publica sus “Entrenamientos con Vistas” (Workouts with a View). Tras el éxito de su canal y con el fin de poder ofrecer a sus seguidores en la isla una experiencia más completa, Lauren se ha hecho cargo recientemente de Coco's Deli en Portals Nous. Me senté a charlar con ella para saber un poco más sobre lo que hace y lo que la ha hecho invertir en un negocio en la isla... Una visita a su cuenta de Instagram deja claro que Lauren es muy dinámica. Una combinación de deporte, viajes y gastronomía para crear una marca que ella vive y respire, con varios miles de entusiastas seguidores. Ha rodado sus “Entrenamientos con vistas” en muchos emplazamientos maravillosos del mundo, buscando que sus seguidores hagan el ejercicio que necesitan con paisajes que les inspiren.

“Quería hacer algo distinto con mis entrenamientos. Cualquiera puede colocar una esterilla de yoga ante una cámara, pero creo que es importante hacer algo diferente e inspirar a la gente”, me comenta “¿Por qué no entrenar en entornos espectaculares?” El canal de YouTube de Lauren tiene algo

para todos, diseñado para ayudar a personas cualquier nivel de forma física. Puedes entrenar cuanto quieras, pero lo importante es hacerlo, y la actitud positiva de Lauren sin duda te alentará a seguir.

A mi cuesta bastante motivarme y comer sano y a menudo me es imposible ver este tipo de videos sin sentirme culpable por no hacer más. Pero la cercanía y la empatía de Lauren ayudan mucho a disipar estos temores. Le importa lo que hace y cree firmemente en que los beneficios mentales del ejercicio son aún mayores que los físicos. ¿Cómo pasó Lauren de ser una gurú del deporte en YouTube a convertirse en propietaria de un café?

Coco's Deli ha estado en Portals Nous desde hace seis años y es el local por excelencia para disfrutar de una comida sana, deliciosa y casera. Lauren era una más de los muchos clientes asiduos del café que pasaban la tarde conversando con la anterior propietaria, Chloe; además gestionaba sus páginas de Instagram y YouTube. Cuando Chloe decidió vender el negocio, Lauren vio la oportunidad de convertirse en la dueña de su lugar favorito en la isla.

“La alimentación y el ejercicio son tan importantes; suena obvio, pero realmente van de la mano,” me cuenta.

Desde que se ha hecho cargo del negocio, Lauren no ha realizado muchos cambios en el local, ya que todo funcionaba bien. Un par de toques personales y algún batido o plato de nueva creación. Los desayunos de siempre, los almuerzos sanos y los tentempiés saludables siguen formando parte de Coco's, y los clientes habituales, así como los nuevos, seguirán acudiendo a disfrutar de su comida sana, a charlar con Lauren o a hacerle un mimo a su perrito Tyga.

Sigue a Lauren @JustAmyLauren on YouTube and Instagram.

Visita Coco's Deli de lunes a viernes de 9.00 a 16.30, sábados de 9.30 a 15.00 y domingos de 10.00 a 15.00. Échale una ojeada a la comida de Coco's en su cuenta de Instagram @cocosdeli o envíales un mensaje para pedir comida para llevar.

# RHOC – The Kinsellas

## Welcome Baby Number Two

*It wasn't long ago – fifteen months in fact – that I was writing an article with the news that Hanna and Martin Kinsella had welcomed their first baby, Max. Now, three months after the birth of their beautiful baby daughter, Kimia Rose, I caught up with the couple to find out how it all went...*

By Ben Mulvey

As always, catching up with Hanna and Martin is something we have to nail down in advance as this couple is always on the move. Between their two children, their multiple businesses and their TV career, there isn't much time to spare. Recently, the couple shared the news that Hanna had given birth to a beautiful baby girl with the equally pretty name, Kimia Rose. Born a healthy 7lb 3oz on the 6th of May after a successful and stress-free C-Section – at least as stress-free as any birth can be – mum and baby are both doing well!

“This time we were a bit more relaxed. We knew what to expect and we had it all booked in advance. Hanna was amazing and everything happened exactly as it should – it was perfect”, Martin tells me.

So how do Hanna and Martin juggle being new parents for the second time in two years

with their incredibly busy careers? With a lot of organisation, it would seem. Martin is back at work and seeing patients three days per week in his UK clinic whilst managing his other business commitments and Hanna, although still, of course, on maternity leave, is keeping up with her Icy Bear Dental range and had just resumed filming on the next series of ITV's Real Housewives of Cheshire. “It's actually really nice to be back at work and filming again to some degree,” Hanna tells me. “As I'm breastfeeding, I can't be away for too long but having the chance to get out of the house and have a bit of time away is really doing me the world of good. Although, I am glad to be home with my babies afterwards.”

Martin is back at work seeing his regular clients, many of whom you will see looking beautiful on his social media while at the

same time working hard to launch his Dr Kinsella skincare line to the masses. The product is available online but the official launch is on the 22nd of June and will make the whole range of skincare treatments more accessible to everyone. Those of you that do follow his social media accounts may have seen he also managed to squeeze in a stag party in Ibiza recently and will have noticed that he, and his friends, also find time to go to the gym! Don't worry, Hanna and baby Kimia will be joining him for the wedding at the end of June while little Max spends some time with his grandparents.

Meanwhile, Hanna has clearly embraced being a mother for the second time and is enjoying bonding with her new baby girl. “It's been amazing to have another baby and Max has handled it so well,” she says.

## WONDERING WHAT TO WEAR IN THE BALEARICS THIS SUMMER?

*ArWhether you’re in Mallorca or Ibiza this summer, what should be in your Balearic wardrobe or suitcase for 2022?*

*Given how diverse these small islands are, they are home to postcard perfect beaches, luxury health retreats, restaurants and shops plus some of the world’s biggest clubs. The Balearics can be experienced in a number of ways. Here is your full guide to what to wear, putting together the perfect Balearic outfits for every occasion.*

### DENIM SHORTS

My go-to no matter where I am, denim cut offs are the only bottoms you need. Slightly shredded and they must fit snugly. Not too small, not too baggy. Of course, you can wear other shorts too, but make sure you have a good pair of blue or black denims. Simply add a boho blouse, boho cowboy boots, fedora hat and a sun kissed tan.

### GLAM PAIR OF SUNNIES

Nothing takes a beach outfit up the ‘glam’ scale quicker than a pair of MASSIVE sunglasses and in 2022 – it’s all about ‘bigger is better’. Think plasma screens in every colour and you’ve got it sorted. Go to Boohoo, Pretty Little Thing, ASOS or Nasty Girl. I always wear oversized, reflective shades – they cover tired eyes AND hide your people watching habits.

### A BUM BAG

I swore I’d never wear a bum bag... and then they became my best friend. Now, a bum bag is my go-to when I want to keep an eye on my valuables at all times. I have two Gucci belt-bags in red and black leather but there are plenty of great high street alternatives out there. So, pick up a fun one that you’ll enjoy wearing, leaving your hands free for... well, whatever you want to do with them. You know your phone is safe along with your door key and euros.

### COMFY TRAINERS OR WALKING SHOES

As well as the nightlife and wellbeing scene that Ibiza is famous for, the White Isle and Mallorca have loads of great hiking trails and spots to explore. If you like to get out and about during the day, you’ll need a pair of comfy walking shoes or trainers. But if you’re partying as well, kill two birds with one stone and go for Nike Air Max in the brightest colours possible. The more acid colours, the better. Don’t forget ankle socks too. And plasters.

### FLATS FOR EVENING

Even if you’re used to wearing heels all the time, you need a pair

of flats for the evening. It’s all about the Balearic boho vibe sandal or flip flop. Even though the Balearic Islands are some of the most glamorous places in Europe, they’re never at the expense of comfort. Choose a pair of glitzy flats that will go with everything. Think embellishment, bright pomp poms and tassels.

### A SELECTION OF SWIMSUITS

Since you’ll be spending a lot of time in your swimwear, always have at least a couple of options. I love at least one bikini, plus a simple black swimsuit which can double up as a bodysuit. Paired with a pair of denim shorts, it’s an easy outfit for the beach parties that run into the night. This year, the red boob tube with leopard print bikini bottoms is the look to go for. Think mix and match. Add that essential kaftan too.

### A HAT

One thing is for sure, though: you’re going to want to wear a hat for that intense Spanish sun. Remember how aging and dangerous the sun is to the skin. Fedora, Trilby, floppy or Panama, a hat is the ultimate Balearic accessory.

### EVENING WEAR

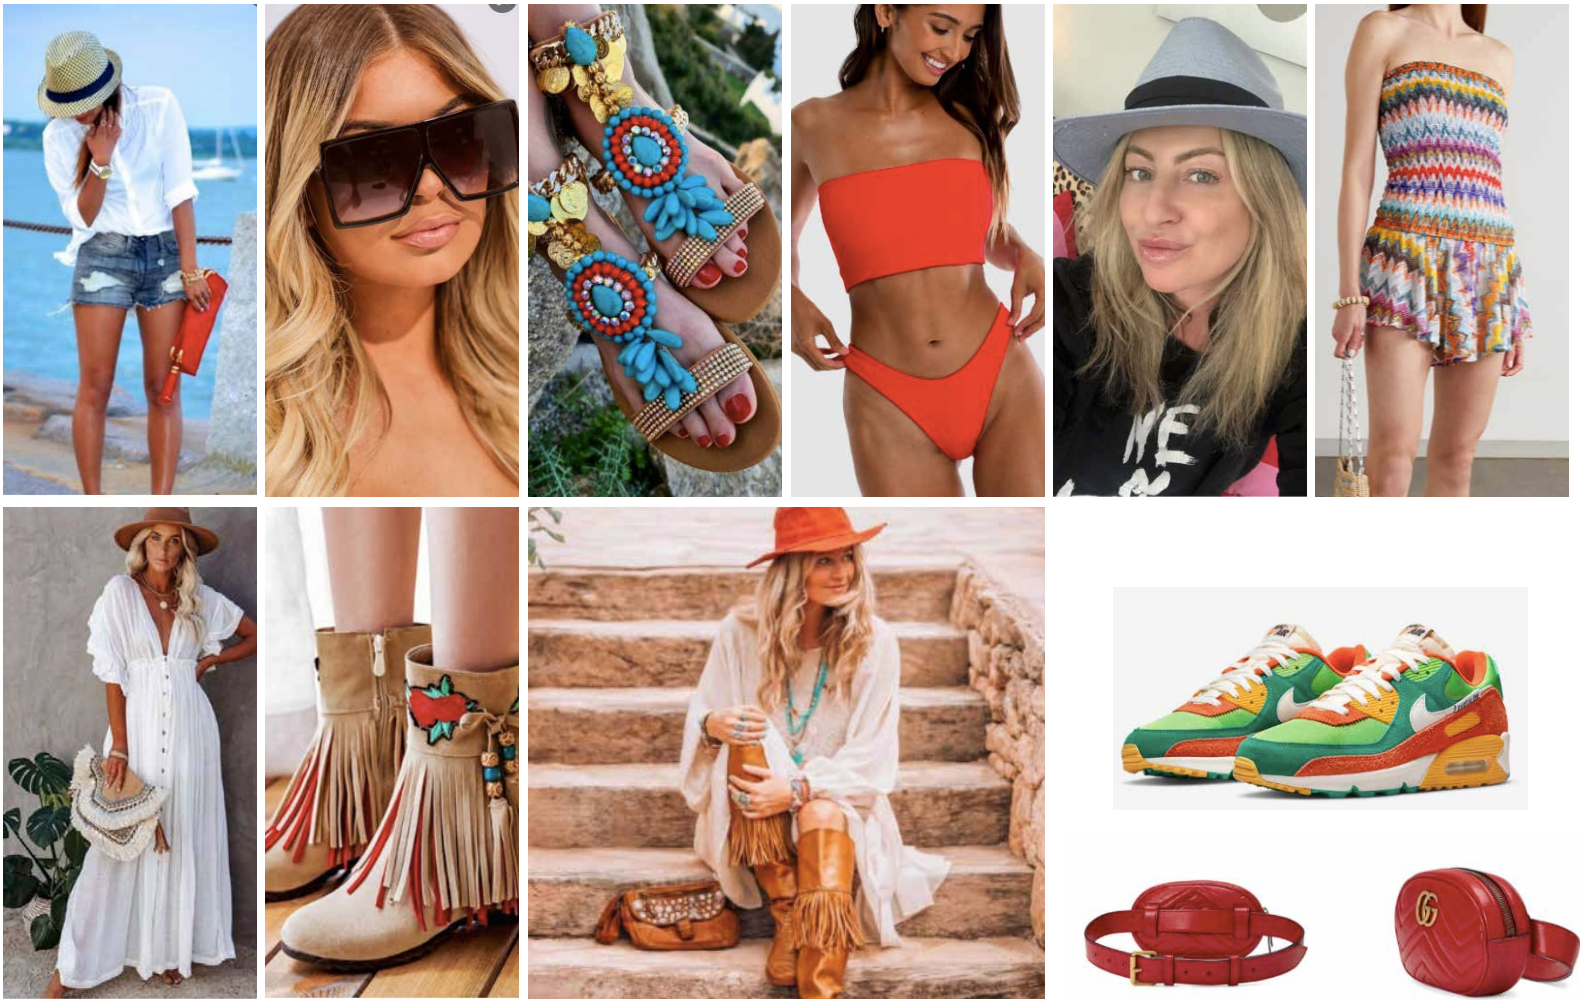

If you’re clubbing, it’s going to be hot and sweaty so keep it cool and small. Little skater dresses or playsuits with little boots is the perfect look for Pacha or BCM.

### DAYTIME POOLSIDE / SHOPPING

It has to be the white boho maxi dress. It’s the ultimate Balearic look. Add your hat, sunnies and embellished sandals and you’ll look like a true islander. Remember white reflects the heat of the sun and it suits everyone.

### BOHO BOOTS

Without a beautiful pair of boho boots, no outfit is complete. From Cowboy boots to buckle boots, they must feature tan suede, colourful embroidery and those all-important tassels.

## ¿PREGUNTÁNDOTE QUÉ PONERTE EN LAS BALEARES ESTE VERANO?

Estés en Mallorca o Ibiza este verano, ¿cuál debería ser tu vestuario estival en 2022? Estas islas son muy diversas, con playas de postal, spas de lujo, restaurantes y boutiques y algunas de las discotecas más grandes del mundo. Por ello, las Islas Baleares pueden vivirse de muchas maneras. He aquí tu guía sobre qué ponerte y cómo combinar las prendas para lucir perfecta en cualquier ocasión.

### SHORTS VAQUEROS

Prenda esencial para todas las ocasiones, los shorts vaqueros son los únicos que necesitarás. Un poco deshilachados y bien ajustados al cuerpo: ni muy apretados ni muy sueltos. Por supuesto podrás llevar otro tipo de shorts, pero asegúrate de tener un buen par de shorts vaqueros en color azul o negro. Combínalos con una blusa bojo, botas camperas boho, un sombrero tipo fedora y una piel bronceada.

### GLAMUROSO PAR DE GAFAS DE SOL

No hay complemento que eleve un look playero a niveles de glamour que un par de ENORMES gafas de sol: en 2022, 'cuanto más grande, mejor'. Piensa en cristales plasma de todos los colores. Mira las colecciones de Boohoo, Pretty Little Thing, ASOS o Nasty Girl. Yo siempre llevo gafas de sol reflectantes y de gran tamaño – te cubren los ojos y te permiten mirar a la gente sin que lo noten.

### RIÑONERA

Juré que jamás usaría riñonera... y ahora se ha

convertido en mi mejor aliado. La riñonera es lo que empleo cuando quiero controlar mis objetos de valor en todo momento. Tengo dos riñoneras Gucci de piel negra y roja, pero hay muchas otras opciones más asequibles en el mercado. Elige una que te guste llevar, y disfruta de tener las manos libres para lo que haga falta, con la tranquilidad de saber que tu móvil, tus euros y tus llaves estarán siempre a salvo.

### DEPORTIVAS CÓMODAS O ZAPATILLAS PARA CAMINAR

Además de las fiestas nocturnas y las opciones de bienestar que caracterizan a Mallorca y a Ibiza, existen muchos lugares para hacer senderismo y explorar el entorno.

Si te gusta salir a caminar, necesitarás unas cómodas deportivas. Pero si también te gusta la fiesta, mata dos pájaros de un tiro y cómprate unas Nike Air Max en los colores más vivos. Cuanto más intensos, mejor. Y no olvides los calcetines tobilleros. Ni las tiritas.

### ZAPATO PLANO PARA LA NOCHE

Aunque estés acostumbrada a llevar zapato de tacón todo el tiempo, necesitas un par de zapatos planos para la noche. Es el estilo sandalia o chancla boho balear. Y pese a tratarse de uno de los emplazamientos más glamurosos de Europa, en las Baleares prima la comodidad. Elige un par de zapatos planos deslumbrantes que combinen con todo... con adornos, pompones y borlas.

### UNA SELECCIÓN DE BAÑADORES

Como pasarás mucho tiempo en ropa de baño, es recomendable disponer de al menos un par de prendas.

A mi gusta tener un bikini y un bañador sencillo negro que hace las veces de body. Combinado con un par de shorts vaqueros, es un conjunto idóneo para las fiestas playeras por la noche. Este año destaca la camiseta tubo de color rojo con braguita de bikini en estampado de leopardo. Todo muy combinable. Y no olvides el imprescindible kaftan playero.

### SOMBRERO

Una cosa está clara: querrás protegerte del intenso sol español con un sombrero. Recuerda que el sol envejece y daña la piel. Modelos fedora, trilby o panamá, todos son el complemento 'must' de las Baleares.

### INDUMENTARIA DE NOCHE

Si sales de fiesta, hará calor y sudarás mucho, así que vístete fresquito. Vestidos cortitos de patinadora o monos cortos con botines constituyen el look perfecto para Pachá o BCM.

### JUNTO A LA PISCINA/DE COMPRAS

Reina el vestido maxi estilo boho en color blanco: el look balear por excelencia. Añade el sombrero, gafas de sol y sandalias decoradas y te sentirás como una isleña. Recuerda que el blanco refleja el calor del sol y le queda bien a todo el mundo.

### BOTAS BOHO

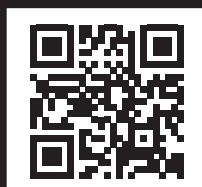

No hay look completo sin un bello par de botas boho. Camperas o con hebilla, hechas de ante marrón, con bordados y los imprescindibles flecos.

# Celebrity “Nice To Meet You” Networking Event Returns

*The much-loved Celebrity Nice To Meet You event was back at the Maricel Hotel on Thursday May 26th and brought together some familiar faces from the magazine and some new ones that had come along to see what the event was all about.*

After a welcome drink on the stunning terrace of the hotel, our guests made their way inside where Donna Suarez introduced the event, explained what Celebrity Nice To Meet You is, and spoke a bit about the magazine in general. Matthew Cull then took to the stage to speak about the latest news and updates with Celebrity Magazine and all of its associated businesses.

Celebrity Nice To Meet You is the ideal opportunity to promote your business and each person in the room did just this by speaking for two minutes about themselves and their services. With plenty of laughter along the way, we learned about everybody in the room and it soon became apparent how many different and interesting businesses there are in Mallorca.

When everyone had taken their turn to speak we all headed back onto the terrace for a drink at the bar and the networking part of the evening. Everyone mingled and chatted

as they sipped their drink and admired the beautiful sea views. The food then came out and the chatting continued as the sun set over the terrace. The event was great fun, well received by all of our guests and plenty of introductions we made for business to be done. Until next time...

Tras una copa de bienvenida en la espectacular terraza del hotel, los invitados se dirigieron al interior donde Donna Suarez presentó el evento, explicó de qué se trata Celebrity Nice To Meet You y habló un poco sobre la revista en general. Luego tomó la palabra Matthew

Cull para informar sobre las últimas noticias en relación con Celebrity Magazine y sus negocios asociados.

Celebrity Nice To Meet You es la oportunidad perfecta para promocionar tu negocio, cosa que hicieron todos los asistentes, hablando durante dos minutos sobre sí mismos y los servicios que ofrecen. Con mucho buen rollo, pudimos conocer lo que hacen todos los que estaban presentes, y llama la atención la gran variedad de distintos e interesantes negocios que hay en Mallorca.

Cundo todos habían tenido la oportunidad de presentar su negocio, regresamos a la terraza para tomar copas y charlar, con el telón de fondo de las maravillosas vistas al mar. Luego se sirvieron las tapas y seguimos conversando hasta que se puso el sol.

Fue un evento divertido, que gustó mucho a todos los asistentes y que sirvió para hacer muchos contactos.

# MALLORCA INSPIRATION FOR NOVELIST JEFFREY ARCHER

*Baron Archer of Weston-super-Mare, better known as one of the world's best-selling authors, Jeffrey Archer is a gracious host when I visit his striking Mallorcan home. An expansive villa built in the finest of taste and style. Mindful, his charming wife Mary tells me, of using mainly local craftsmen and materials.*

By Laura Stadler

"I fell in love with Mallorca from the very first time I came here and have been visiting the island for 30 years" he explained. "A close friend offered me his home in Mallorca to write one of my earlier books, and I fell in love with the island and have been coming here ever since. Finally, about 15 years ago, I decided to build my own home, but it took some time to find the perfect spot.

It appears Mallorca offers him inspiration. "I confess that as my home in Cambridge faces the Urals, the first three months of the year are better spent in Mallorca than in the east of England. I enjoy the light and the beauty of the coastline of course – my writing room overlooks the Bay of Palma with the Tramuntana mountains in the distance. And I mustn't forget the paella and the very good local wine."

Lord Archer has written 27 pacy and easy to read best-selling books, having sold an ever rising 250 million books, in 97 countries currently translated into 51 languages. Most created in the tranquillity and beauty of his Mallorcan office.

"Each novel takes approximately a year – a thousand hours. During that time I visit Mallorca three times: for six weeks in

January/February when I write the first draft, four weeks in March/April when I then work on the typed up manuscript, and two or three weeks in May/June. The editing can be done after that at my home in Cambridge. So by the time I leave Mallorca, 80% of the work is done.

"I like the discipline of routine, so each morning (including weekends) I rise at 5.30am, go to my writing room and work from 6-8am. I then have breakfast and take a break, before going back to work at 10am until noon, when I do an hour's walk before having lunch. Back to my writing room at 2pm until 4, when I relax for two hours, maybe read or catch up on the cricket. My final session is from 6pm until 8, which is mainly reading and correcting the day's work. I then have a light supper and am in bed by 10pm."

Archer does not hammer away at a typewriter. Instead, he writes calmly in longhand, famous for often penning 14 drafts of each novel before he is satisfied. I was interested to learn how he crafts his highly enjoyable novels.

"When I start a new book, I have a very rough outline in my mind, but it's not unusual for the story to go in a totally different direction after only a few pages. And I believe inspiration is

a God-given gift, for which I'm grateful every day."

Archer while being a strong no-nonsense character, I discover is a lively raconteur; acting out amusing anecdotes complete with hand gestures and accents. His quick wit and banter recognisable in his fictional characters. Indeed, I wondered whether some characters in his books are taken from the wide variety of people he had encountered in his extraordinary life?

"I consider it a great privilege to have met so many interesting people over the years, and I have to admit that their sometimes strange lives and fascinating insights do find their way onto the page – never as a novel, but often as the inspiration for a short story."

Currently, Archer is writing the much awaited sixth book in the William Warwick detective series. An unashamed fan I wanted to know how many more to expect.

"Book five of the William Warwick novels is called Next in Line, where William is a superintendent and working in royalty protection. That book will come out in September and I'm currently writing book six – to be released next year. But I can't tell you the title at this early stage! William Warwick will progress from a constable on the beat to Commissioner of the Metropolitan Police. Assuming I live long enough to write all eight novels." Archer is an ever-youthful Aries who belies his 82 years. Perhaps a legacy of his athletic past, exercise and careful eating habits.

I was keen to know of his favourite Mallorcan restaurants.

"Once I'm here, I'm afraid I rarely venture out other than for my daily walk, particularly when I'm writing the first draft. On later visits I might go out to dinner at Cap Rocat as it's so close, or very occasionally visit friends who live in Pollensa."

Did he have any advice to anyone wishing to live or buy in Mallorca?

"It's hard to advise whether to buy a little flat in Palma or find a piece of land overlooking the sea. I'm in a Spanish enclave on land overlooking the sea, and that suits me, but might not suit everyone."

Certainly Lord Archer and his wife Mary, a lady of grace, elegance and accomplished academic wisdom, who met as young students at Oxford, appear to thrive on our island.

NB Jeffrey Archer is published in Spain: books by HarperCollins, but also in e-books by Saga Egmont, who are just catching up with publishing the Clifton Chronicles

## MALLORCA, INSPIRACIÓN DEL NOVELISTA JEFFREY ARCHER

El Barón Archer of Weston-super-Mare, más conocido como uno de los autores de más éxito del mundo, Jeffrey Archer, es el amable anfitrión que me recibe en su maravillosa casa de Mallorca. Una vivienda de grandes dimensiones construida con el mejor de los gustos y estilos y, según me comenta su esposa Mary, por albañiles y artesanos locales así como materiales de las islas.

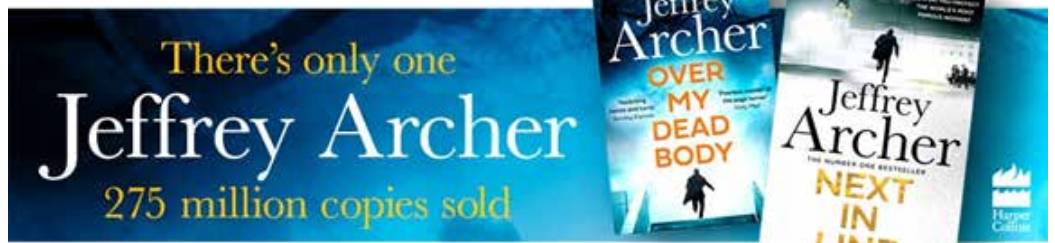

“Me enamoré de Mallorca la primera vez que vine, y llevo visitándola durante 30 años”, me explica. “Un amigo íntimo me prestó su casa para poder escribir una de mis primeras obras, y me enamoré de Mallorca, a la que viajo constantemente. Finalmente, hace unos 15 años, decidí hacerme una casa propia, aunque tardé un poco en encontrar el lugar perfecto.”

Parece ser que Mallorca le brinda inspiración. “Confieso que dado que mi casa en Cambridge se orienta hacia los Urales, es preferible pasar los primeros meses del año aquí que en el este de Inglaterra. Disfruto de la luz y la belleza de la costa y, naturalmente, la estancia en la que escribo tiene vistas de la bahía de Palma con la Sierra de la Tramuntana al fondo. Y no nos olvidemos de la paella y el muy buen vino mallorquín.”

Lord Archer ha escrito 27 obras de acelerado ritmo y fácil lectura, con ventas de 250 millones de libros en 97 países y traducidos a 51 idiomas. Muchos de ellos han sido creados en el entorno tranquilo de su despacho mallorquín.

“Cada novela me lleva aproximadamente un año – unas mil horas. Durante ese tiempo visito Mallorca en tres ocasiones: estancia de seis semanas en enero/febrero cuando escribo el primer borrador, cuatro semanas en marzo/abril cuando trabajo sobre el manuscrito mecanografiado y dos o tres semanas en mayo/junio. La edición del texto la realizo luego en mi casa de Cambridge. Así pues, cuando regreso finalmente de Mallorca a Inglaterra, suelo tener el 80% del trabajo ya hecho.

“Me gusta la disciplina de una rutina, así que

me levanto cada día (fines de semana inclusive) a las 5.30, voy a mi despacho y trabajo de 6 a 8 de la mañana. Luego desayuno y me tomo un descanso antes de volver a trabajar de 10 a 12; a mediodía camino durante una hora antes de comer. Vuelvo al despacho de 2 a 4, tras lo cual me relajo leyendo o viendo críquet. La última sesión de trabajo del día transcurre de 6 a 8, cuando leo y corrijo lo escrito durante la jornada. Luego ceno ligero y me acuesto a las 10 de la noche.”

Archer no emplea máquina de escribir. Escribe todo a mano, y con frecuencia llega a escribir hasta 14 borradores de una novela hasta quedarse satisfecho. Le pregunté cómo crea unas novelas tan amenas.

“Cuando empiezo un nuevo libro, tengo en mente un esquema general, pero puede ocurrir que la historia vaya por otros derroteros completamente distintos al cabo de unas páginas. Y creo que la inspiración es un don divino, por el cual estoy agradecido cada día.”

Aunque es un personaje sensato, Archer es un gran contador de anécdotas, que enriquece con gestos y acentos. Su ingenio y sus divertidas ocurrencias se reflejan en sus personajes. De hecho, le pregunté si algunos de los personajes de sus libros se basan en la

mucha gente con la que se ha encontrado a lo largo de su extraordinaria vida.

“Considero un gran privilegio haber conocido a tanta gente interesante en todos estos años, I debo admitir que sus - en ocasiones- extrañas vidas y fascinantes perspectivas se han visto reflejadas en alguna que otra página – nunca en una novela, pero sí como inspiración de una narración breve.”

Actualmente Archer está escribiendo el muy esperado sexto libro de la serie policíaca de William Warwick. Como fan incondicional, deseo saber cuántos más prevé escribir.

“El quinto libro de las noveles de William Warwick se titula Next in Line, donde William es un comisario que trabaja en la protección de la casa real. Este libro saldrá en septiembre, y ahora estoy escribiendo el sexto – que saldrá al mercado el año que viene. Pero no puedo desvelarte el título a estas alturas. William Warwick irá avanzando en su carrera, de agente de policía a Comisario de la Policía Metropolitana. Siempre y cuando yo viva el tiempo suficiente para escribir las ocho novelas”. Archer es una persona de espíritu juvenil, nacido bajo el signo de Aries, que no aparenta los 82 años que tiene. Tal vez consecuencia de su pasado deportista, el ejercicio y unos sanos hábitos alimenticios. Le pregunté cuáles son sus restaurantes favoritos de Mallorca.

“Cuando estoy en Mallorca, apenas salgo excepto para caminar cada día, sobre todo cuando estoy escribiendo el primer borrador. En otras visitas posteriores suelo ir a cenar a Cap Rocat, porque me queda cerca, o a visitar a unos amigos que viven en Pollensa”.

¿Algún consejo para alguien que desee vivir o comprar casa en Mallorca?

“Es difícil aconsejar entre comprar un pequeño piso en Palma o un terreno con vistas al mar. Yo estoy en un lugar con vistas al mar, y es lo que me gusta, pero tal vez no sea para todos”.

Desde luego parece que Lord Archer y su esposa Mary, una elegante señora con un currículum académico impresionante, que se conocieron cuando eran estudiantes en Oxford, disfrutaron al máximo de nuestra isla. NB Jeffrey Archer se publica en España: libros por HarperCollins, y en formato e-book por Saga Egmont, quien actualmente está publicando los Clifton Chronicles.

# THE ST REGIS MARDAVALL MALLORCA RESORT: ARABELLA SPA

*The St. Regis Mardavall Mallorca Resort is a five-star hotel in the southwest of the island that is the epitome of luxury, style and relaxation. With 125 rooms, a luxury spa, a stunning swimming pool and its very own Michelin-star restaurant, Es Fum, this hotel certainly stands out from the crowd in Mallorca, and indeed in Spain.*

By Ben Mulvey

Aside from the hotel's rooms and dining options, the in-house Arabella Spa has made a name for itself in its own right as one of Europe's best, and largest, spas. The 4700m<sup>2</sup> spa boasts eleven treatment rooms, indoor and outdoor pools, a salt pool, Jacuzzi, and a jet shower for guests to relax and indulge in. There is also a Finnish sauna (90°C), a steam sauna with aroma (42°C -45°C), an ice cave (10°C), and a salt sauna (37°C-40°C) that all surround the salt pool, each one offering different types of relaxation and health benefits.

The Arabella Spa embraces a holistic concept that combines the ancient healing methods of Traditional Chinese Medicine with well-known Western treatments. It does this through a bespoke spa programme that gives guests access to an array of different

treatments.

Each spa programme is tailored to the guest with a focus on anti-pain, detox and slimming, anti-stress or beauty treatments. The whole process begins with a body composition consultation to determine the guest's physical condition in terms of muscle, water and fat percentage. These tests give the qualified team of therapists, spa specialists and Chinese doctors an idea of what treatments they can offer and what would be beneficial for each guest. Interestingly, these tests are so simple yet offer a great deal of information - guests stand on a machine with their feet on a metal sensor and their hands on another for a few seconds and the machine does the rest. Another part of the initial consultation involves lifestyle questions that are intended to find out what each guest needs. These

questions are to determine eating habits, general well-being, and stress levels and to give the therapists more of a guide on how best to treat each and every guest.

The spa programmes include treatments such as classic or oriental body therapies (ayurvedic treatments from India, Hawaiian Lomi Lomi massage, Thai massage) or treatments from Traditional Chinese Medicine. Each programme is interchangeable meaning that guests can pick and choose treatments from each one to make their own personalised treatments. Guests can choose between a two-day, five-day or week-long programme and all programmes include full access to the Arabella Spa and access to all of the classes that take place every day including yoga, Tai Chi, Pilates, meditation, and Aqua Gym.

Once the chosen spa programme has been completed, guests are invited for a final consultation where the specialists will look at the initial consultation results and compare them. Here, guests can see how they have benefited from their spa or medical treatments as well as from physical activities and mental exercises and analyse how they move on with their ongoing health plan. These plans are designed to kickstart a health plan, reset the body and the mind and highlight any issues that should be dealt with in order to live a healthy lifestyle whilst emphasising the importance of taking time out for ourselves. All of these packages are available to residents, visitors and hotel guests and the spa is open to adults only between May - October from 8 am - 9 pm. ## PERSONAL REVIEW

by Celebrity Magazine Publisher, Donna Suarez

“The spa programmes have changed the way we look at our own well-being and health.”

My friend Beccy Bellafont-Evans of Mallorca Solutions and I decided to try one of the holistic spa programmes at Arabella Spa. First, Spa Director, Tami Le, interviewed us and set the individual goals for both of us. For me, the main goal was to give my body and mind a little break, to relieve the persistent tension in my neck and shoulders, cleanse and detoxify my body, and maybe even lose a little weight. After a detailed consultation, Tami put together a customised 5-day-detox-anti-stress programme for me. On the first day of the programme, I had my very own personal trainer who designed an individualised workout plan for me and gave me some valuable nutritional advice. My spa programme also included five 80-minute spa treatments. I was especially thrilled by the Lymphodrainager. This highly effective drainage device with cupping glasses stimulates the metabolism and improves the structure of the skin. I also experienced a very special moment in the private yoga class: Do you know that the body and breathing are closely linked and can evoke deep emotions? Beccy, on the other hand, was particularly interested in overhauling her general health as well as relieving stress. Therefore, Dr Lu

and Dr Tang, currently two of the best experts in Traditional Chinese Medicine (TCM) in Europe, devoted themselves to Beccy's well-being and health. Health issues of all kinds respond effectively to acupuncture, especially when combined with other natural healing

methods such as herbs and dietary changes. TCM is one of the oldest healing systems and is all about treating existing ailments, but also preventing new ones! All in all, the spa programmes have changed the way we look at our own well-being and health, so they are highly recommended. ## TWO QUEER DJ'S WORK IBIZA OPENINGS!

**Luxuriating poolside, chit-chatting about fashion and swapping tunes, DJ BUTCH QUEEN (a fav of the UK's queer scene) and I have just completed a stellar weekend of Wait....What? Ibiza Opening Partys and we got to talking about how there's a considerable shift in how clubs, promoters and DJs are conducting business post-Covid.**

The industry big boys and girls are reaching out and encouraging new queer talent, smaller, underground parties such as WWI to collaborate putting quality and relatability before quantity and money. This means that they are delivering what clubbers really want, an experience that is relatable to all and reflects what really is going on in society because the powerful and growing queer community coupled with the open-mindedness of Gen Z is where the future of clubbing truly lies, not just replicating generic club concepts across Ibiza, Dubai and New York. Plus, you can't replicate the essence of an underground club night.

Recently I had the great pleasure of meeting and working with two people who get it with bells on! Gemma Charters, Director of Brand & Events at O Beach and DJ/Producer Antton who is the Creative Manager of the new nightclub, OUT Ibiza San Antonio where we had our WWI GO XTRA Party with our Drag Queens, Guest DJs Scott Gray & BUTCH QUEEN who brought his incredible energy and music plus me going b2b with WWI resident DJ Agent KoKo. DJ Antton has played Clandestino Space, Melon Bomb, Es Vive, Cafe del Mar, and Ushuaia and he wanted to have a club that supports and brings to the forefront the Ibiza seasoned DJs. Antton is also committed to bringing in new talent & fresh underground parties such as WWI which is very much in line with our ethos of bringing seasoned and new DJs together - watch this space for future WWI collabs

with OUT! In the meantime, get back to the heart of the Ibiza underground clubbing scene and visit OUT Ibiza.

It's IBIZA PRIDE Season June 11th - 18th and WWI are on it like a rocket with a pre-party on 10th June at Sunrise Bar, our DJ's on the main stage for both Opening & Closing Ibiza Pride Galas and we will be hosting an official closing party at Bam-Bu-Ku Beach Club (the little sister of O Beach). We couldn't be more thrilled & thankful for the support shown to us by Gemma Charters at OBeach. Gemma is very much

on the side of the new breed of DJs coming from the UK/Ibiza queer scene and the OBeach ethos of inclusion plus their enthusiastic involvement in Ibiza Pride 2022 certainly has us excited to see what the OBeach Group have up their sleeve for 2023. Our Ibiza Pride Closing Party will see the return of DJ BUTCH QUEEN, Director of Ibiza Pride DJ San Balibrea, Banana Laser and the WWI Resident DJs will be serving up tunes so check our WWI socials for all the information relating to Ibiza Pride 2022.

What we need in our lives other than music and clubs is CAKE and in Ibiza, The Cake Lady (as she is fondly referred to) from The Cake Studio has got it covered..in CAKE! Starting full time in 2015. The Cake Studio Ibiza supplies bespoke cake creations with clients that range from superstar DJs and film stars to your next-door neighbour. Extravagant and outrageous is what The Cake Lady does best, I know cause I've scooped, ordered and had a love affair with her creations for many years. Award-winning for the last three years, she is a busy bee so bookings should be done at least a month in advance, especially for weddings. A personal friend of mine, I

set you a challenge in ordering the most extraordinary cake from The Cake Lady, as if she hasn't got enough on her cake stand - sorry Cake Lady!

## IDOS DJS GAY AMENIZAN LAS FIESTAS DE APERTURA EN IBIZA!

Disfrutando del lujo al borde de la piscina, conversando sobre moda e intercambiando canciones, el DJ BUTCH QUEEN (muy querido en la escena gay británica) y yo venimos de finalizar un espectacular fin de semana de fiestas inaugurales de Wait....What? Ibiza y estuvimos hablando sobre los cambios que hemos observado en la manera en que las discotecas, los promotores y los DJs llevan sus negocios en la era post-Covid. Los y las grandes del sector se están abriendo y alentando a nuevos talentos gays y fiestas underground más reducidas tales como WWI, donde priman la cercanía y la calidad sobre la cantidad y el dinero. Esto significa que están ofreciendo lo que los clubbers desean: una experiencia cercana que conecta con todos y que refleja lo que realmente está sucediendo en la sociedad, ya que el futuro de la fiesta reside en la potente y creciente comunidad gay junto con la amplitud de mente de la Gen Z, no tratándose ya de replicar conceptos de fiesta genéricos en Ibiza, Dubai y Nueva York. Además, no es posible replicar la esencia de una noche de fiesta underground.

Hace poco tuve el gran placer de trabajar con dos personas que captan esto a la perfección. Gemma Charters, Directora de Marca y Eventos en O Beach y DJ/ Productor Antton, Director Creativo de la nueva discoteca OUT Ibiza San Antonio, donde tuvo lugar nuestra Fiesta WWI GO XTRA con nuestras Drag Queens, DJs Invitados Scott Gray y BUTCH QUEEN, quien aportó su increíble energía y música, y yo mismo con el DHJ residente de WWI

Agent KoKo. DJ Antton ha trabajado en Clandestino Space, Melon Bomb, Es Vive, Cafe del Mar y Ushuaia, y deseaba encontrar una discoteca que apoyara a los DJs más veteranos de Ibiza. Antton está comprometido con traer nuevo talento y nuevas fiestas underground como WWI, que se ajusta muy bien a nuestra meta de juntar a DJs veteranos y nuevos – así que estad atentos a futuras colaboraciones WWI con OUT. Mientras tanto, disfrutad del corazón de las fiestas underground de Ibiza y visitad OUT Ibiza.

Del 11 a 18 de junio se celebra el ORGULLO IBIZA y WWI se apunta de lleno con una pre-fiesta el 10 de junio en Sunrise Bar, nuestros DJs en el escenario de las Galas del Orgullo de Inauguración y Clausura y celebraremos una fiesta oficial de clausura en Bam-Bu-Ku Beach Club (la hermana pequeña de O Beach). Estamos superfelices y agradecidos por el apoyo que nos ha brindado Gemma Charters en OBeach. Gemma presta mucho apoyo a la nueva ola de DJs de la escena gay británica/ibicenca

y la filosofía de inclusión de OBeach combinada con su apasionada implicación en el Orgullo Ibiza 2022 nos despierta el apetito por saber qué tienen previsto para 2023. Nuestra fiesta de clausura del Orgullo Ibiza 2022 nos despierta el apetito por saber qué tienen previsto para 2023. Nuestra fiesta de clausura del Orgullo Ibiza 2022 contará con el regreso de DJ BUTCH QUEEN, el Director del Orgullo Ibiza DJ San Balibrea, Banana Laser y los DJs residentes de WWI, que amenizarán la velada. Consultad las redes sociales de WWI para informaros sobre todo el Orgullo Ibiza 2022.

Lo que hace falta en nuestras vidas, además de la música y las discotecas, son los PASTELES. Y en Ibiza, la Dama de los Pasteles (como se la conoce en la isla) del The Cake Studio tiene la solución. The Cake Studio Ibiza produce creaciones personalizadas para cualquiera, desde DJs famosos y estrellas de cine hasta para la vecina de enfrente. Su especialidad son los pasteles extravagantes y alucinantes, que conozco bien porque me he puesto las botas con sus creaciones durante muchos años. Ganadora de varios premios en los últimos tres años, tiene mucho trabajo, por lo que conviene hacer los pedidos con al menos un mes de antelación, sobre todo para las bodas. Es una amiga mía, y os reto a todos a pedirle que os haga la tarta más extraordinaria de la Dama de los Pasteles... como si no tuviera ya bastante trabajo... ¡perdóname, Dama de los Pasteles!

# Talk The Talk

Born and raised just outside of Chicago and with almost 20 years of experience **Kristine Julia** brings special musical knowledge and taste to truly move a party. Maintaining loyalty to her roots she creates a diverse dance floor atmosphere with a variety of related styles. Playing in very different scenarios over the years, Kristine Julia is able to read a crowd and flow with it symbiotically.

Hello, and welcome to the first of my series of insightful conversations between the movers and shakers of the electronic music industry and myself, Kristine Julia. I am delighted to have house music legend and innovator **KERRI CHANDLER** here today.

**KJ:**

Thanks for taking the time to speak with me. Let's talk about your new album, 'Spaces and Places' coming out in October on your label.

**KC:**

Yeah, on Kaoz Theory. I've been working on this project for about four or five years now. The only reason it hasn't come on earlier is because of Covid. I'd have to be on tour to make the album really work because I'm going back to the same places I did all of these songs. And there are about 24 different songs at 24 different clubs from around the world. Everything from DC10, Ministry of Sound, Magazzini Generali, Lux, and Rex Club in Paris. Clubs in New York and in California. I mean, it's been a hell of a journey.

**KJ:**

Amazing! You've gone deeply into creating the sensation of actually being in these spaces by writing, recording and performing in each one. What was your inspiration for that?

**KC:**

It's the combination of a lot of things. A lot of these clubs I have years and years of relationships with and, in my own way, it's kind of paying homage or tribute to each of these clubs. It's like coming home to each place. And each place is a little bit different with the people that I see a lot. With District Eight, every time I go back to Ireland, it's like going back to the family. My great grandmother's Irish, so it's just it's one of my favourite places to be. So for me, it's like going to each place and having family there. Watching the changes, some for the better some not for the better. But it's just a fun journey going into each place and creating sonically something in each space that makes sense for what I feel about the place.

**KJ:**

It's wonderful how you've connected generations with places and spaces that are so important to you.

**KC:**

That's why I named it 'Spaces and Places' like all the spaces and places I've gone. Like in Subclub, just going back to the club and creating things that are wrapped around that space; I had such an amazing time there. And each club was so welcoming, like 'We'd love for you to come in

and do it!' You know, I get to sit in the middle of the room just making music up in one of my favourite places. I don't know if anyone's actually done anything quite like this. I'm an engineer anyway at heart, so I had a lot of fun doing it.

**KJ:**

Now that you're back on tour and you've been doing this a very long time, what drives you to go the extra mile to keep yourself at this level?

**KC:**

Do you know what it is? I love it. It's like breathing. I mean, I can't imagine not doing it. And I said the day that I don't feel the energy like when I was thirteen years old putting the record on, putting the song on and listening and enjoying it that way, if I don't feel the same way or better than I did when I was a kid playing records, that's the day I'm going to stop. And it hasn't happened yet.

**KJ:**

What would you say to aspiring musicians, DJs, and performers?

**KC:**

Things take time but reach for the stars.

Hola y bienvenid@s a la primera de una serie de geniales conversaciones que yo, Kristine Julia, mantengo con las figuras más influyentes de la industria de la música electrónica. Hoy estoy encantada de poder charlar con la leyenda de la música house, el innovador Kerri Chandler.

**KJ:**

Gracias por tomarte el tiempo para charlar conmigo. Hablemos sobre tu nuevo álbum, 'Spaces and Places' que produce tu propia discográfica y que sale en octubre.

**KC:**

Sí, producida por Kaoz Theory. He estado trabajando en este proyecto desde hace unos cuatro o cinco años. La única razón por la que no ha visto antes la luz ha sido por el Covid. Tendría que hacer una gira para que el álbum funcionase, ya que se trata de los mismos lugares en los que compuse los temas. Y hay 24 temas distintos de 24 discotecas distintas por todo el mundo. DC10, Ministry of Sound, Magazzini Generali, Lux y Rex Club en París; discotecas en Nueva York y en California. Es

decir, un larguísimo recorrido.

**KJ:**

¡Increíble! Has logrado transmitir la sensación de estar en estos espacios, al componer, grabar y actuar en cada uno de ellos. ¿Qué te inspiró a hacer esto? '

**KC:**

Es la combinación de muchas cosas. Con muchas de estas discotecas tengo muchos años de relación y es mi manera de hacer un homenaje a cada uno de estos sitios. Me siento en cada uno como si volviera a casa. Y cada lugar es distinto. En District Eight, cada vez que regreso a Irlanda, es como volver a ver a mi familia. Mi bisabuela es irlandesa, así que es uno de mis lugares preferidos. Para mí, es como visitar cada lugar y tener familia allí. Observar los cambios, algunos para mejor y otros no tanto. Pero es un viaje divertido ir a cada sitio y crear algo sónico que refleje lo que siento por cada uno.

**KJ:**

Es maravilloso ver cómo has conectado generaciones con lugares y espacios tan importantes para ti.

**KC:**

Por eso lo he llamado "Spaces and Places": todos los espacios y lugares en los que he estado. Me pasa con Subclub, cuando vuelvo a la discoteca y creo cosas íntimamente relacionadas con aquel lugar; pasé momentos geniales allí. Y cada vez que iba, me decían que les encantaría que fuera y lo hiciera allí. Ya sabes, sentarme en el medio de la pista y componer música en uno de mis lugares favoritos. No sé si alguien ha hecho algo así antes. Yo en el fondo soy ingeniero, así que me divertí mucho haciéndolo.

**KJ:**

Ahora que estás de gira otra vez- cosa que has hecho durante tanto tiempo- ¿qué es lo que te hace esforzarte por mantenerte en un nivel tan alto?

**KC:**

¿Sabes lo que es? Que amo lo que hago. Como respirar: es decir, no me imagino no hacerlo. Y siempre he dicho que el día que no sienta la misma energía que sentía con trece años cuando ponía un disco para escucharlo y disfrutarlo de esa manera, si no me siento así o mejor que cuando era un crío tocando discos, dejaré de hacerlo. Y esto no me ha sucedido todavía.

**KJ:**

¿Qué consejo le darías a músicos, DJs o artistas que empiezan?

**KC:**

Las cosas llevan su tiempo, pero apunta a las estrellas.

# THE MAN-WELL CUP

**The power of sport is incredible.** Despite the elements, Saturday the 23rd April saw 'The Street Angels' take on 'The Yachties' in the Premier Charity Football Event which was graciously hosted at Sporting Son Ferrers' Campo de futbol (Rob Croll, RMA). Hundreds braved the driving cold winds, rain and eventual sunshine to perpetuate a suitably warm atmosphere in aid of raising awareness for men's well-being.

By Steve Burge

Entitled 'The Man-Well Cup'; the event was the brainchild of Gary Napier from The GAP Counselling. Organised by Rachel Wilson and supported by IBEX Insurance, The Anchor Bar (Sant Agusti), Red Hot Branding, Celebrity Magazine and Mallorca Shores, these businesses all joined forces to help raise funds and awareness for worthy causes. During the course of events, Iris from Cancer Support Group, Nick Entwisle from Yachting Gives Back and Sarah Napier from The Street Angels all gave resonating speeches in keeping with the spirit of the day, promoting men's health and general well-being in the Balearics.

The match itself brought together two rival teams of mixed nationalities. Amateur footballers from across the global yachting community and all over the islands that predominantly play for fun. That said, the standard was high. The battle was hard fought and loaded with incident. The Yachties drew first blood with a heavily contested penalty,

tucked away from the spot precisely by Captain Allan James. From the kick-off, the Angels immediately levelled up with a wonderfully crafted opener for 'Man of the Match' and hat-trick hero, Richard Ford, to slot away. The third goal came from a long range driven effort from outside the box by some humble guy. This set the tone for the rest of the match and despite the Yachties hard fought efforts, the game ended 9-3 to The Street Angels. Captain and goal scorer Craig Dorans proudly lifted 'The Man-Well Cup' for the very first time to the pitch-side tune of 'We are the Champions' while his team celebrated with their medals.

A plethora of local businesses, keen to showcase their support for the event; Med 54, The Anchor, Hair Waves (El Toro), Elefante (Santa Catalina), Bar Rositas (Calvia), Russell Martin Academy, Ferrers Café (Son Ferrer), Stepps (Santa Ponsa), Gemini Salon (Magaluf), Palma Jump Parques de Trampolines (Palma) all contributed with

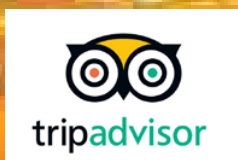

generous prize donations for the raffle give-away and the Children's Penalty Kick Competition, which was won by Teddy McKinnon Cole at just 12 years old. After the game there was a free BBQ and goody bags. Cameron Cull Media even provided post-match video highlights.

The day was about more than just football. It united the community and showed how sport can bridge divides, even at the toughest of times. Giving back, helping the vulnerable, detecting cancer early and encouraging men to open up more and discuss their issues are completely synonymous with the healthy living ethos the Balearics portray. For an inaugural event, it could not have gone any better or been more entertaining. There were some really positive conversations, and we are already looking forward to the next one in what appears to be a certified legacy event! If you would like to get involved or been affected by any of the issues raised in this article please contact; [gnapier@thegapenterprises.com](mailto:gnapier@thegapenterprises.com).

# MARK EDWARDS OF FACES OF MALLORCA

*Faces of Mallorca is an extraordinary book that conveys the soul of Mallorca through its captivating photos and chats with exceptional Mallorquins. Written by Mark Julian Edwards and Stephanie Schulz, it tells the story of Mallorca through local Mallorquin's eyes, imparting a fascinating insight into Mallorcan life. A wonderful timeless book that I highly recommend.*

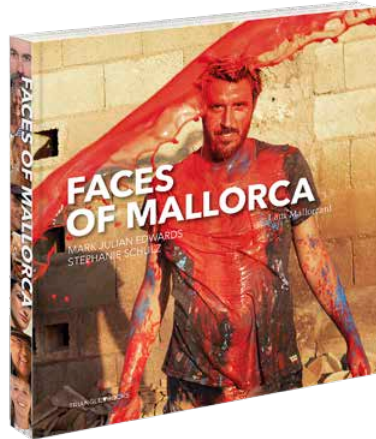

***I met with Mark, who captured these inspired photos, to discuss this widely acclaimed book.***

## ***What inspired you to write the book?***

“Personally, I have always loved seeing how people’s stories could be captured simply with a photo and a small amount of text. I remember growing up in the UK, and when my parents were reading the Sunday newspapers, I would always reach for the magazine section, where I could dive into people’s stories.

Soon after I moved to Mallorca, Steffi and I became friends and discovered that we shared the love of storytelling.

I had felt that it was quite difficult getting to know the local Mallorquins, and we both felt that whilst there had been many books written about Mallorca, there were very few that sought to tell its story from the Mallorquins’ perspective.

We decided to make a book of which both locals and visitors would be proud of; that’s why we agreed to have it in four languages, English, Spanish, Mallorquin and German.”

## ***A German and a Brit writing a book about Mallorquins, that sounds like a rather difficult task***

“I know, but actually, we faced no resistance at all. We even felt appreciated. I guess it was surprising for people that these “outsiders” had a true desire to understand and tell the real story of the island.”

## ***I love that it has a coffee table book feel. What made you decide on this format?***

“From the outset we wanted it to be a photo book. We wanted people to be able to dip in

and out of the book and very quickly get a sense of the island. The photos tell the story, so we didn’t want to waste words.”

## ***How did you work together?***

“I took the photos and we shared the writing. Everything was a collaboration. Whilst I took the shots, Steffi would often be suggesting the angles or managing the lighting. We also have quite different writing styles and this creative tension helped with the end product.

After living here for several years, Steffi already had a circle of Mallorquin friends, speaking the language fluently, which was incredibly helpful.”

## ***Who are some of your favourite characters?***

“That’s such a hard question to answer, Laura! It is almost impossible to choose, even though there are always some people who stand out for some reason or other. Sometimes, people’s stories would move us, make us laugh or sometimes we just felt such a nice warmth.

I think the most surreal moment for me was photographing Toni Nadal. As I was running around the court taking photos, it was incredible to think that this was the same court where Toni had coached Rafa who now has 21 Grand Slam titles. Steffi always remembers our encounter with the nuns of Santa Clara as very moving and special.”

## ***What did you learn?***

“For a start, we learnt that anything is possible. The book began with an idea. If you had said to us a few years back that we would

have written a photo book, endorsed by so many high profiles, including the Lonely Planet, the BBC and Toni Nadal, we would not have believed you. Neither of us had ever written a book.

We also learnt about setting a vision and making other people part of it. People got the idea and concept of the book immediately and after a few interviews; folks were actually asking us to be in the book!

Perhaps the biggest lesson was around collaboration. Steffi and I are quite clear that the book would not have happened without the other person. Sometimes I feel we put such huge pressure on ourselves to be the leader in our lives, whereas actually having a friend to share the burden – and creative ideas – helps a lot.”

## ***What makes you most proud about the book?***

“If you place the book in one hand and quickly flick through all the images in the other, you’ll see a diverse set of characters, offering readers the essence of Mallorca and what it means to be Mallorquin. This was really our ambition, to let the photos and short, meaningful texts tell the story.”

Faces of Mallorca is available at all major book stores in Mallorca, Stanfords in the UK and on Amazon in English, Spanish, German and Mallorquin and on Instagram at [facesofmallorca](https://www.instagram.com/facesofmallorca).

## Ibiza Meets Menorca

My enjoyable 10-minute walk to my shop in Plaza del Principe often includes a morning 'café con leche' or an evening 'G & T' at the stylish Soho Menorca\* bar which is owned and run by Mariana and Oscar. It was able to open its doors in October 2021 after a major refurbishment despite all the Covid disruption. Personally designed by Marianna it is like a luxurious 1920's speakeasy – think rich turquoise velvet, art deco mirrors and lots of gold!

I am a people-watcher and from my favourite window seat I observed how the premises next door were undergoing change and being curious I promptly introduced myself to Jeremy and Sharon Lamont Norris the owners. Their new, exciting business

concept 'The Flat Gallery'\* is where they source, exhibit and sell Art, NFT's\* and collectables. The opening night took place with renowned Valencian artist Eduardo Bermejo not only displaying some of his amazing art but also hand painting a bass guitar during the evening for auction. An eclectic mix of artists also displayed some of their fascinating works. It seemed the whole island turned out to support this innovative creative space and the after party carried on well into the early hours.

Another of my observations was that of a flamboyantly dressed 'man about town' either cycling, riding an electric scooter or strolling around with a unique style that certainly makes him stand out from the

crowd. My curiosity aroused I soon got chatting to Vaughan 'Afrika' Stanford. Our Ibiza readers will no doubt recognise the name as he is an 'Ibizan' legend from Pacha since working there in the early 80's, one of the top podium dancers at the time as the island became world famous amongst elite party lovers. He moved to Menorca a couple of years ago but his business interests there still include The Original Funky Room at Pacha and Babylon Beach, Santa Eulalia. Vaughan's life experiences could easily fill a book! When asked why he chose Menorca to live he says it's down to the stylish living, friendly people, better value and it's authenticity.

Jeremy has known Vaughan since working in Ibiza when he held the coveted position as resident DJ in Space. One winter they coincided working gigs in Stuttgart and their friendship grew. Jeremy eventually returned to the UK to be with his first love Sharon (they met at 16) and established a stable family life. A couple of years ago it felt right to return to Spain. Having spent two years travelling around the mainland looking for the right location to settle it was on a visit to see Vaughan that they just instantly knew it was Menorca they wanted to call home.

The Ibiza connection continues as whilst planning the after party in Soho in conversation it turned out that Marianna and Oscar had run the Macadam Beach Club, Playa den Bossa from 2000 until 2005. Vaughan, Jeremy, Marianna and Oscar were all working hard (and partying) on our sister island at the same time! I asked Marianna the same question as to why the move to Menorca, she says it felt a safe, healthy place for family life. The opportunity to expand their new business as they also have a large basement event space means they are confident of future growth and potential.

## Ibiza Meets Menorca

Mi agradable paseo de 10 minutos hasta la tienda que tengo en la Plaza del Príncipe a menudo incluye un café con leche matinal o un gin tonic al atardecer en el estiloso bar Soho Menorca\*, regentado por sus propietarios, Mariana y Óscar. Finalmente pudo reabrir en octubre 2021 tras una reforma integral en tiempos del covid. Personalmente diseñado por Mariana, recuerda a los bares clandestinos de los años 1920 – terciopelo color turquesa, espejos art déco y mucho dorado.

Me gusta mirar pasar a la gente y desde mi mesa favorita junto a la ventana he estado observando los cambios que se han ido realizando en el local contiguo hasta que me acerqué un día a presentarme a los propietarios, Jeremy y Sharon Lamont Norris. En su nuevo e interesantísimo negocio, "The Flat Gallery"\*, localizan, exponen y venden obras de arte, NFTs\* y objetos de colección. La galería se inauguró con la exposición del afamado artista Eduardo Bermejo, que incluyó no solo una selección de sus maravillosas obras sino que pintó a mano un bajo para subastar más tarde. En el evento también se expusieron varias obras de un ecléctico grupo de artistas. La isla entera acudió a apoyar este innovador espacio creativo, y la fiesta siguió hasta altas horas de la madrugada.

Entre mis otras observaciones está la de un señor vestido de forma estafalaria, que se

pasea por ahí en bici, en patinete eléctrico o a pie con el estilo único que le caracteriza. Deseando saber más sobre este personaje, me propuse conocer a Vaughan 'Afrika' Stanford. Nuestros lectores de Ibiza sin duda reconocerán este nombre, ya que se trata de un personaje legendario de Pacha, donde trabajaba desde los años 80 como uno de los bailarines gogó más importantes en la época en que la isla se convirtió en la meca de los amantes de la fiesta. Se mudó a Menorca hace un par de años pero todavía tienen intereses comerciales en The Original Funky Room de Pacha y Babylon Beach, Santa Eulalia. ¡Las experiencias vividas por Vaughan bien valen un libro! Preguntado por qué eligió Menorca para vivir me cuenta que es el estilo de vida, la amabilidad de la gente, mejor relación calidad-precio y su autenticidad.

Jeremy conoce a Vaughan desde sus tiempos en Ibiza cuando era DJ residente en Space. Ambos trabajaron un invierno en bolos en Stuttgart y comenzó una larga amistad. Con el tiempo Jeremy regresó al Reino Unido para estar con su primer amor Sharon (se conocieron con 16 años) y fundar una familia. Hace un par de años decidieron volver a España y, tras pasar dos años recorriendo la Península en busca del lugar idóneo para asentarse, fue cuando visitaron a Vaughan que descubrieron que Menorca era el lugar perfecto.

Esta conexión con Ibiza continuó: mientras hablaban y planeaban una fiesta after en Soho, me Mariana y Óscar me contaron que de 2000 a 2005 habían estado al frente del Macadam Beach Club, Playa d'en Bossa. ¡Todos ellos - Vaughan, Jeremy, Mariana y Óscar - habían estado trabajando (y disfrutando de la fiesta) en nuestra isla hermana al mismo tiempo! Le pregunté también a Mariana que por qué habían elegido Menorca, a lo que me respondió que porque es un lugar seguro y sano para la vida familiar. La oportunidad de poder ampliar el negocio, ya que cuentan con un sótano de grandes dimensiones, les brinda además buenas perspectivas para el futuro.

Ya está previsto que Vaughan organice noches 'WAY Funky' en el Puerto, con Jeremy como DJ, ¡así que atentos a las fechas!

Me resulta fascinante la interesante sinergia que parece estar produciéndose en esta isla balear menos conocida, valorada por clientes más exigentes que buscan lugares con creatividad, buena música, oferta hostelera de primera y, sobre todo, discreción y tranquilidad.

# SOLLER VALLEY STORIES

by Shirley Roberts

## THE SOLLER VALLEY LOOKS FORWARD TO SEEING YOU...

The summer is here and the energy is back in the Soller Valley. The Covid years have left their mark but we are all now ready to embrace the sun, the people and our lives. In the Soller Valley, the teams are busy with their plans. The staff looking after our historical commemorations have their dates to organise. This is particularly significant in late August when the St Bartholomew Fiesta takes pride of place for a week. This is one of the times when Sollerics living in other places return to claim their town back for its fiesta. A joyful time of local tradition, music, partying and fun.

Those charged with delivering tourism fiestas are very busy. Concerts, live music, drive-in movies, local dancing and much more occupy our space daily. From now till the end of September, you will find plenty of wonderful events in Soller, the Port of Soller, Fornalutx and Deia.

The estate agents of the valley are very busy as so many want a slice of Soller and the Port. Buyers say they want to live amongst the working heart of the place and not in a mansion with a big wall and security outside the door. To wander the streets and just join others in the square, watching the world go by, seems to be at the heart of what most buyers want.

The summer sets the scene and the experiences travel home with many. They, in turn, are on the phone to the agents to

organise a week of house viewing. They have had a holiday that they didn't want to come to an end and now they want so much more. Early autumn is set to be full of this year's buyers doing just that and joining the celebrities who have just made that choice.

Soller is being discovered by a new generation every year. The vibrant heart of the place explodes in the new music and experiences they bring with them. Our little place in the universe is actually 'cutting edge' (in a gentle sort of way). Come and see us soon...

## EL VALLE DE SÓLLER OS DA LA BIENVENIDA DE NUEVO...

Ha llegado el verano y, con él, la energía al valle de Sóller. Los años de la pandemia han dejado su impronta pero ya estamos listos para recibir al sol y a la gente y para recuperar nuestras vidas. En el valle de Sóller los responsables de las fiestas patronales están ocupadísimos haciendo planes, sobre todo la de San Bartolomé, que dura una semana. La ocasión perfecta para que muchos de los Sollerics que residen fuera puedan volver

y celebrar juntos unos días de tradición, música, fiesta y diversión.

Los encargados de la oferta de ocio también están muy ocupados. Conciertos, música en directo, cine drive-in, bailes y muchas otras actividades, organizadas desde ahora mismo hasta finales de septiembre en Sóller, Port de Sóller, Fornalutx y Deià.

Asimismo, los agentes inmobiliarios del valle se hallan muy atareados porque son muchos los que buscan poseer un pedacito de Sóller y de su puerto. Los compradores desean vivir en el corazón mismo de la población, en lugar de en una casa grande a las afueras que precise de guardia de seguridad. Lo que buscan es poder salir a pasear por sus

calles, tomarse algo en la plaza y ver pasar a la gente.

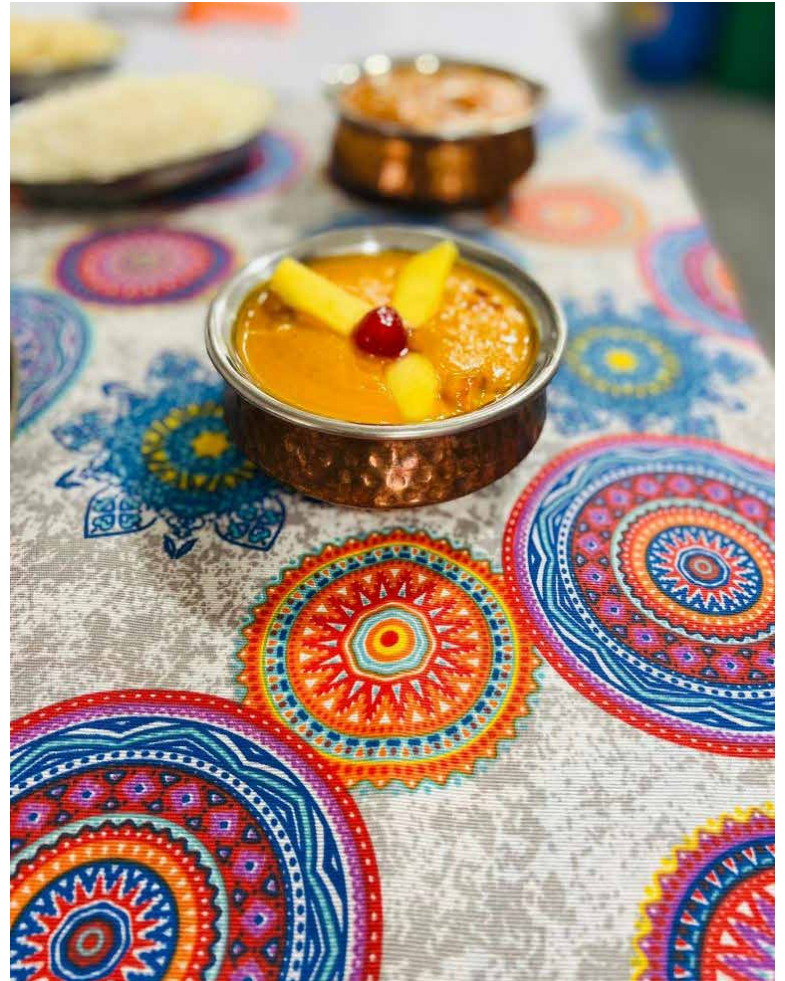

En verano muchos vienen de visita pero que, no queriendo que sus vacaciones terminen, contactan con inmobiliarias para poder comprarse una casa por aquí hacia el otoño, entre ellos muchas celebridades.

Sóller es descubierta cada año por una nueva generación. Su alma vivaz se revitaliza con las nuevas experiencias y la música que traen consigo. Nuestro pequeño lugar del universo está a la vanguardia de las cosas. Venid a visitarnos pronto...

# JASBIR: BRINGING INDIAN FOOD TO THE ISLAND

*Twenty years ago, finding an Indian restaurant in Mallorca was no easy task which, for the expats that are partial to their weekly curry fix, was a major downside of life in Spain. Now, scattered around the island are lots of Indian restaurants but it was Jasbir who was one of the first to open a top-quality Indian restaurant in Palma....and that was just the beginning!*

By Ben Mulvey

Taste of India on the Paseo Maritimo in Palma has long been on the top of many residents' takeaway lists (mine included!) thanks to its superbly fragrant Indian cuisine made with the freshest ingredients. This restaurant is also ideal to visit for a nice evening meal with great views over the twinkling masts that are docked in the huge marina opposite. The dishes are beautifully presented, the menu varied and the service speedy, efficient and friendly. For those familiar with Indian cuisine, the traditional favourites like a chicken vindaloo, a lamb rogan josh and prawn bhuna are on the menu as well as all of the well-loved accompaniments and rice dishes. There are also some special chef's dishes that are definitely worth a try - and if you like it hot, be careful what you wish for as they will do it for you!

Following the success of Taste of India, Jasbir branched out further into the expat community by opening another Taste of India in Santa Ponsa. This second restaurant has proved just as successful as the first one with residents and tourists flocking to enjoy the food and the terrace. In fact, so successful was this new opening that Jasbir saw that the appetite for Indian food was so great in the area that he opened two more eateries: Tandoori Station and Bombay. Both places serve the same food in a more relaxed setting and have both been very busy since they have opened and look like they are there to stay. So with four Indian restaurants under his belt, it could be assumed that Jasbir would take a step back and let his restaurants run themselves after twenty years of tireless work. "My success has been because I work all of

the hours needed for my businesses," he told me. "And I will not stop yet." It is no surprise then that he has had another restaurant to his collection and opened something a little different - an Italian restaurant. Piccolo di Mare is Jasbir's first restaurant that does not serve Indian food which some may consider a risk. But, based on his previous success, I have no doubt that it will be a success. Jasbir promises that the restaurant will serve traditional Italian dishes and pizzas straight from the pizza oven that guests can enjoy on the terrace. The same care and attention that he has given to all of his other restaurants will be applied here and the staff have been ready and waiting to serve everyone since it opened on the 3rd of June!

If you're searching for an authentic, delicious Indian meal then look no further than any one of Jasbir's restaurants. They are open daily and also available for takeaway and delivery.

## JASBIR: TRAER COMIDA HINDÚ A LA ISLA

Hace veinte años no era nada fácil encontrar en Mallorca un restaurante hindú, lo cual suponía un grave problema para los extranjeros de la isla que están acostumbrados a comer curry con frecuencia semanal. Hoy en día hay restaurantes hindúes por toda la isla pero uno de los primeros en abrir un hindú de primera calidad en Palma fue Jasbir ...¡y esto fue solo el principio!

Taste of India en el Paseo Marítimo de Palma hace años que es uno de los favoritos entre los residentes (¡me incluyo!) donde ir a por comida hindú para llevar a casa, con sus fragrantísimos platos hindúes elaborados con los ingredientes más frescos. Este restaurante es un lugar ideal para disfrutar de una cena agradable con excelentes vistas de los mástiles tintineantes en los pantalanes de enfrente. La presentación de los platos es magnífica, la carta es variada y el servicio es atento, rápido y eficiente. Para aquéllos que conocen

la gastronomía hindú, la carta incluye platos tradicionales como el vindaloo de pollo, el rogan josh de cordero y el bhuna de gambas, además de deliciosas guarniciones y arroces. Asimismo hay platos especiales del chef que vale la pena degustar – y si te gusta el picante, ¡ten cuidado porque si se lo pides no se cortarán!

Tras el éxito de Taste of India de Palma, Jasbir decidió abrir otro Taste of India en Santa Ponsa. Este segundo restaurante ha resultado tener tanto éxito como el primero, popular entre turistas y residentes que disfrutan de la comida y la terraza. De hecho, el éxito fue tal y las ganas de comida hindú tan evidentes que Jasbir decidió abrir otros dos restaurantes: Tandoori Station y Bombay. Ambos negocios sirven la misma comida en un entorno más informal y han estado llenos desde su inauguración, por lo que parece que han llegado para quedarse.

Así que, con cuatro restaurantes en su haber, podríamos imaginar que Jasbir se tomaría un descanso y dejar que se gestionen los restaurantes por sí mismos tras veinte años de trabajo constante.

“Mi éxito se debe a que trabajo todas las horas que exigen mis negocios,” me contó. “Y no voy a parar ahora.”

No sorprende, pues, que haya añadido otro restaurante a su colección, aunque esta vez

algo distinto- un restaurante italiano. Piccolo di Mare es el primer restaurante de Jasbir en el que no se sirve comida hindú, que algunos considerarían algo arriesgado. Pero, en vista de sus éxitos anteriores, éste promete ir bien. Jasbir comenta que el restaurante servirá platos italianos tradicionales y pizzas recién hechas en el horno, para degustar en la terraza. Se beneficiará de la misma atención y esmero que caracterizan a todos sus restaurantes y sus empleados están listos para daros la bienvenida a todos desde su apertura el 3 de junio.

Si buscas comida hindú auténtica y deliciosa, elige uno de los restaurantes de Jasbir. Abiertos diariamente y con opción de comida a domicilio.

# Island Spirit Mind, Body & Soul

with Amanda Morgan

The transformation of one's self means to acknowledge and then change yourself from within and with-out. For me and the ones I work with this means mentally, physically, emotionally, spiritually and energetically. It happens when either you are in or pass through a difficult situation in your life, or you initiate it yourself to bring about a meaningful beginning and life changing journey. In most cases, you regenerate your soul towards bringing this change in yourself. Transforming and regeneration of your soul is not easy. Shamanic Energy Work is one of the most powerful ways for Self-Transformation. We do this in several ways.

For more information contact me via my website [www.jamievida.com](http://www.jamievida.com).

As well as this we need to start with some basic habits. Breathe and slow down for self-transformation is essential, sometimes we may pressurize ourselves a little too much in this process This can be the last thing that will help you adopt positive changes.

Find the right crowd. It is almost always easier going through things with other people. This is

## The Unsung Heroes: Superfoods And Super Supplements Weekly Wisdom

Once you've started on the path to holistic health and wellbeing and have begun to rid yourself of environmental toxins, the next step is to make sure your diet consists of organic, nutrient-rich, and information-dense foods.

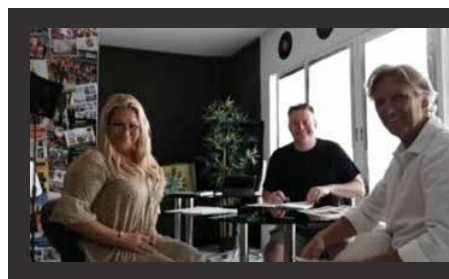

Superfoods and supplements instruct your genes to repair the organs and systems in your body and restore brain health, and can all but eliminate your risk for Alzheimer's, cancer, diabetes, and a host of other diseases of civilization. Some foods are considered superfoods because of their high phytonutrient content and the quality of information they provide to your DNA. As a rule, the more colourful a fruit or vegetable, the richer it is in phytonutrients and the greater its power as a superfood.

## Self transformation summary

The transformation of one's self means to acknowledge and then change yourself from within and with-out. For me and the ones I work with this means mentally, physically, emotionally, spiritually and energetically. It happens when either you are in or pass through a difficult situation in your life, or you initiate it yourself to bring about a meaningful beginning and life changing journey. In most cases, you regenerate your soul towards bringing this change in yourself. Transforming and regeneration of your soul is not easy. It takes a lot more courage and guts to face. Sometimes you must face it by yourself. While Self is the one who asks the questions, and partly Self is the one who can give you some of those answers, it can be one of the toughest and most important explorations in your life. It is coming within. Discovering who you really are.

Therefore, self-transformation is not an option, it is fundamental to our existence and transition to Homo-Luminous beings.

## Horoscopes for Summer 2022

### ARIES

After having dealt with more than one thing at a time and overcome many obstacles, you will finally see your goals coming to fruition this summer. Aries, you may experience a somewhat difficult reencounter with someone, but this summer will be full of adventure, you will be a hit wherever you go, with the sun charging your batteries with extremely positive energy. You will enjoy passionate but brief love affairs. Aries, this is not a time for commitment. There will be surprises at all levels. A lot of health and vitality for you this summer, as well as romance, passion, extra earnings at work. It would seem that your problems are all behind you now!

### TAURUS

At last good fortune has arrived for you this first summer month. Setbacks will be in the past and you will be in fine form. You will be changing your attitude and backing down occasionally, which will be good for your spirit: become more flexible. New opportunities will be cropping up this summer. Remember that you cannot replace your loved ones with anything or anyone. But you must be open to the wonderful opportunities that will come up for you this summer, do not hold on to deep set ideas. Chase after what you love the most and many chances will come up for you to choose from. If you know what you want and follow your intuition, towards the end of the summer you may be having a stable relationship, born out of some summer romance. As for health, you will improve in terms of energy levels. Seawater purifies you and the sun fills you with vitamins that will improve both your mood and your overall health. In terms of finance, no great changes here. Willpower is not your strongpoint; if you try to be more organised and willing, your finances will improve after the summer.

### GEMINI

Dear twin, this summer you will win many hearts and achieve anything you put your mind to at all levels. Summer romances and affairs will not be long term but you will really enjoy the partying, the madness and the passion. These summer months are full of learning opportunities for you, which you will be benefiting from during the winter. Gemini: during these warm months you will give the best of yourself to everybody, all the time. You are at the top of your game!

### CANCER

You will start to do things for yourself this summer and realise that suffering for someone who does not deserve it is silly. Things start to fall into place and this summer will be very positive for you. Although romance may knock at your door during these months, this will largely consist of short term affairs, except for one. If you want to have that stable relationship you have dreamed of, the time has come

to open up to new opportunities and take a good look at who you've got in front of you. You will have many chances and might miss the right one because you were not paying attention. Cancer, listen to your heart and follow your intuition. A great opportunity comes your way during these summer months, either in terms of love or work and finances: be on the lookout and don't let it get away!

### LEO

Summer will be full of chances to live life to the most, with travelling, parties and many plans that will fill you with adrenalin and joy. This is not the time to find the great love of your life but it is the time for adventure. But you must have your head screwed on straight and stop fantasising or having expectations that will only lead to disappointment. Enjoy what summer brings to you and use your solar energy to have fun and fill yourself up with joy. New times are on their way: you have finally taken the plunge and shown your courage. This summer you must assimilate the changes you have made in your life, with pleasure and a good attitude, but always with that hint of melancholy and nobility that characterises your great lion heart.

### VIRGO

Virgo, the time has come to address the problems that have caused endless sleepless nights, and this summer new opportunities will come your way to leave them behind once and for all. During these summer months you will want to be surrounded by your family and friends, leading a normal life with people you trust and who provide you with warmth and serenity. Not the time for great adventures, but for enjoying the day to day. No big changes are in store for you this summer, Virgo; neither in terms of health nor love, but solutions that have been a long time coming will be at your doorstep. Enjoy your day to day life!

### LIBRA

Your hard work has been worth it and you will begin to reap the benefits this summer. You will be focusing on the positive and forgetting about any setbacks of previous months or any unfair situations that have affected your life: as a Libra, you find injustice hard to swallow. This summer will bring love to you, so if you are in a relationship you must control yourself and ignore any admirers; but if you don't have a partner, you might start something this summer that could turn into something more serious. This summer for you will be a total surprise, where decisions must be made at all levels, both material and sentimental, with important issues and choices to consider. Place them all on your scales and choose what is best for you.

### SCORPIO

Focus on what is important, Scorpio. You want to do a million things and more than you can cope with, which will make you feel overwhelmed in all aspects

of your life. You know what your priorities, goals and dreams are. But don't lose sight of them because new opportunities will come into your life. This summer will be filled with new things, lots of plans, but focus on what's important. As for love, you will have a stable relationship with summer which might turn into the love of your life if you still haven't found it. But rein in your jealousy and possessiveness and do not show the passion inside of you right at the start, just hold it in a bit – even if it is hard for you, let your magnetism loose little by little, surprising all those around you by stages, instead of unleashing all that unbridled passion you have inside of you all at once. Make an effort to communicate and to express yourself to others and things will work well for you in all areas.

### SAGITTARIUS

Aware of how breakups make you feel and how hard it is to find people who love to share it all, you are no longer looking for anyone and wanting to enjoy life free of any restraints. However, this summer may have a surprise in store for you, and you might find a person with whom you feel great during these summer months. As for work and finances, you may experience a minor setback which will be solved by the end of the summer. In terms of health, relax a lot this summer and recharge your batteries.

### CAPRICORN

You are going to feel great this summer, desired and sought after by everyone, the life and soul of the party and enjoying all manner of events like never before, surrounded by many friends and lovers that will truly boost your self-esteem and your ego. Studying and hard work will have reaped success thanks to your capacity for organisation and your willpower, so you will be able to party in the full splendour and freedom of summer.

### AQUARIUS

Aquarius, you are still not clear about what you want in life, you are volatile and this makes it hard. Any flings will remain just flings and jobs will be changing if you don't get learn to commit. This is not a criticism: on the contrary, but you must understand that your independence and your comfort zones do not mesh well with the idea you have of a soulmate. You want a stable relationship but not comfortable losing the independence and freedom you love so much. So this summer it all falls on you, on what you are willing to give and take.

### PISCES

Come on, Pisces, this is your time! This summer you will be reaping the fruits of our labour, and many joys and surprises await you. Luck will be by your side throughout the summer. June will be fairly intense for you. Summer arrives full of positive and highly intense feelings and you will feel very grateful for everything. Many lovely things will happen for you this summer that will make you grow. Good fortune at all levels for you, Pisces.

Como los estudios y el trabajo habrán dado sus frutos por toda tu capacidad de organización y fuerza de voluntad podrás disfrutar de la fiesta y del esplendor y la libertad del verano.

## ACUARIO

Acuario, aún no tienes todas las cosas claras que quieres para tu vida, eres volátil y así no das pie con bola, tus ligues se quedarán ahí, en ligues y los trabajos irán variando si no te dejas meter en la red. Esto no es una crítica, sino todo lo contrario, pero has de entender que a veces tu independencia y tu espacio confort, no se compaginan a la perfección con esa idea de pareja de alma gemela que tú tienes en los pensamientos. Las relaciones estables están en tu mente, pero no acabas de sentirte cómodo con la posibilidad de perder la libertad y la independencia que tanto amas. Así que este verano dependerá todo de ti y de lo que tú estés dispuesto o dispuesta a dar y recibir.

## PISCIS

Vamos Piscis, estás de enhorabuena, este verano vas a recoger todos los frutos que tanto tiempo llevas sembrando y cuidando, muchas alegrías y sorpresas llegan a tu vida. La suerte te acompañará durante todo este verano. Junio va a ser muy intenso para ti. Comienza el verano con un montón de emociones positivas y súper intensas y te vas a sentir muy agradecido por todo. Te pasarán este verano muchas cosas bonitas que te harán crecer. Suerte a todos los niveles Piscis.

## *It's Showtime at last!*

With a small bit of rebranding and a large heap of visitors, the Palma International Boat Show was a stunning and deserved success in 2022, after a very lean couple of years for all the obvious reasons.

In 2020, we were all under lock and key and in 2021, there were few international travelers and buckets of rain. The event in 2022 was finally worthy of its billing and was the first major European boat show for a few years.

Formerly known as the Palma Superyacht Show, the harbour in front of the old town brought together 276 participating

companies, 264 beautiful boats and more than 32,000 visitors over four days of glorious spring sunshine, void of any restrictions at last. Presenting some of the best superyachts over 24m in length that currently exist in the brokerage and charter market, another big draw was the 'Superyacht Village', with a wide range of land-based exhibitors, showcasing shiny new wallet-emptying toys and kit to take onto the water in our forthcoming Med season.

Is there a better place for a superyacht show anywhere at all? With the backdrop of the old town dominated by the cathedral, the

glittering Med over the wall, the countless fantastic bars and restaurants, all within an easy jaunt of an event that had a tangible got-out-of-jail feeling after everything we've been through. We deserved this one...

### **Goodwood**

Prior to the Palma Show, I headed off quickly to the UK and the Goodwood Road Racing Club's Members Meeting. The GRRC hosts three major events each year, the Members Meeting in spring and the Revival Festival in autumn, both of which are race meetings

taking place on the super-fast circuit that ended Stirling Moss's competitive career, developed as many motor racing circuits were out of the perimeter roads of old WW2 aerodromes. Their other major event is the Goodwood Festival of Speed in July, which has developed into one of the biggest shindigs of the British summer season - a car culture bonanza that now hosts 120,000 spectators over three days and is based around Goodwood House itself, with a hill climb format that shoots the cars from the house at the bottom of the hill to the horse racing venue at the top.

What I like about the Members Meeting on the circuit is that it's manageable in terms of its more limited attendance - albeit with membership of the GRRC being only £43 a year for the right to buy tickets - and has angry noisy racing in priceless Ferraris, Jags, Cobras and Astons, to name just a few.

It was particularly special to see Bruno Senna lapping the circuit in uncle Ayrton's 1989 McLaren MP4/5, those iconic colours pushed along by the violent Honda V10 that spilt the ears - and just one of the many normally aspirated 3.5 litre V8s, 10s and 12s of the late 80s and early 90s that reminded

us what F1 cars should sound like.

Not much quieter was Gordon Murray's T50 Cosworth V12 supercar prototype that paced this particular parade, complete with his 'fan car' concept that sucks the car to the ground - tried and withdrawn (so as not to upset the sport..) as early as 1978 in his Brabham BT46 fan car that won its first and last race. He tells us that the T50 has everything right that his 1992 McLaren F1 road car had wrong - which was not much.. Yours with a cool starting price of three million dollars (and judging by the current value of the McLaren F1 road cars, worth every penny...).

### Cycling does its bit

The 6Points Mallorca took place at the end of May - an annual 400km+ ride around the whole island over three days - and an initiative that has so far raised well over

€120,000 for local worthy charities since its inception 5 years ago.

Through the course of the year, 6Points Challenges also organises monthly rides and due to the current awful conflict in Ukraine, the April edition of the monthly ride was held to raise money for those affected by Russia's invasion, including many individuals and families who have been displaced to Mallorca.

In cooperation with Yachting Gives Back and UR Mallorca - an important new local charity organisation offering vital and meaningful support to displaced Ukrainians - over €3200 was raised by around 30 cyclists on a 70km ride in stunning spring sunshine, starting and finishing at Santa Maria, sumitting the Puig de Magdalena on the way.

Cycling brings a great deal to our beautiful island each year, extending the tourist season each side of the summer. 6Points offers the chance to ride it in the best possible way.

# BARCOS, MOTOS Y COCHES

## ¡Ya empieza la función!

Con cierto reposicionamiento de marca y un montón de visitantes, el Palma International Boat Show ha sido un rotundo y merecido éxito en 2022, tras un par de años de ausencia por motivos que todos conocemos. En 2020 estábamos todos confinados y en 2021 hubo pocos turistas internacionales y mucha lluvia. El evento de 2022 ha resultado ser la primera feria náutica que se ha celebrado en Europa en varios años.

Conocida anteriormente como la Palma Superyacht Show la feria, ubicada en el muelle delante de La Lonja, ha logrado reunir a 276 empresas participantes, 264 maravillosos barcos y más de 32.000 visitantes en los cuatro días de duración bajo un sol primaveral y libre de restricciones Covid. Uno de los reclamos de este año, y con algunos de los mejores superyates de más de

24 m de eslora que existen actualmente en el mercado, ha sido el 'Superyacht Village', que incluyó una amplia gama de expositores con una muestra de flamantes y costosos barcos en los que surcar el Mediterráneo esta temporada. ¿Existe un lugar más idóneo para exponer un megayate? Con el telón de fondo de las históricas fachadas de Palma y la catedral, un mar deslumbrante, los innumerables bares y restaurantes, todos próximos al emplazamiento de un evento que hemos sentido todos como la gran liberación tras un largo cautiverio. Nos lo merecíamos...

## Goodwood

Justo antes del Palma International Boat Show hice un viaje relámpago a Inglaterra para asistir al Encuentro de Socios del Goodwood Road Racing Club. El GRRC

organiza tres grandes eventos cada año. El Encuentro de Socios en primavera y el Revival Festival en otoño, que tienen lugar en el circuito que puso fin a la carrera competitiva de Stirling Moss y que fue construido, como muchos otros circuitos de carreras, sobre un aeródromo de la segunda guerra mundial en desuso. El otro evento de renombre que se organiza es el Goodwood Festival of Speed en julio, que se ha convertido en una de las efemérides más importantes del verano británico – un acontecimiento automovilístico que convoca a 120.000 espectadores a lo largo de tres días, en el que los vehículos corren cuesta arriba desde Goodwood House hasta

el hipódromo en la cima. Lo que me gusta del Encuentro de Socios es su aforo más limitado – a pesar de que la cuota de socio de 43 libras al año te da derecho a comprar las entradas – y que reúne a increíbles vehículos de valor incalculable: Ferraris, Jaguars, Cobras y Astons, entre otros.

Fue emocionante ver a Bruno Senna recorrer el circuito en el McLaren MP4/5 de 1989 de su tío Ayrton, aquellos colores emblemáticos potenciados por el Honda V10 que rompe tímpanos – y uno más de los V8s, 10s y 12s de 3,5 litros de finales de los 80 y principios de los 90 que nos recuerdan cómo deben sonar los coches F1. Igualmente ruidoso fue el prototipo de super-deportivo de Gordon Murray, el T50 Cosworth V12, con su concepto de tecnología ‘fan car’ que succiona el aire que pasa bajo el coche creando un ‘efecto suelo’ – probada y luego retirada para no perturbar al deporte ya en

1978 cuando su fan car Brabham BT46 ganó su primera y última carrera. Nos cuenta que el T50 corrige todo lo que iba mal en el 1992 McLaren F1 - que tampoco era tanto. Puede ser tuyo por tres millones de dólares (y a juzgar por el valor actual de los coches F1 de McLaren, lo vale).

### El ciclismo aporta su grano de arena

El 6Points Mallorca tuvo lugar a finales de mayo – un recorrido de más d 440 km por toda la isla a lo largo de tres días- y una iniciativa que ha conseguido recaudar más de 120,000 euros para obras benéficas locales desde que se creó hace 5 años.

A lo largo del año 6Points Challenges también organiza recorridos mensuales y,

a raíz de conflicto de Ucrania, el del mes de abril recaudó fondos para las personas afectadas por la invasión rusa, entre ellas muchas familias de refugiados en Mallorca. En colaboración con Yachting Gives Back y UR Mallorca – una nueva obra benéfica en Mallorca que presta ayuda imprescindible a los ucranianos desplazados – se recaudó un total de 3200 euros con un recorrido de 70 km en el que participaron 30 ciclistas bajo un fantástico sol primaveral, que comenzó y terminó en Santa María e incluyó una subida al Puig de la Magdalena.

El ciclismo aporta mucho a nuestra bella isla cada año y prolonga la temporada turística al inicio y al final del verano. 6Points brinda la oportunidad de disfrutar de la mejor manera posible.

## Property Market Update *by Amanda Butler*

The 2021 market report is finally out, and according to official figures supplied by the Spanish Ministry of Transport, Mobility and Urban Agenda (MITMA), the transaction volume in the Balearics property market was around 6.6 billion euros, of which just over 5 billion was Mallorca based. In comparison to 2020 figures with the market valued at 3.6 billion (2.7 billion in Mallorca), this represents a mega 81% growth.

Looking at the volume of home purchases by non-resident foreigners there were 4,692 operations in the Balearic Islands at the end of 2021, with its best figures in the fourth quarter --1,626 transactions. These figures represent an increase of 103.73 percent over the previous year.

This of course is not surprising considering this was the start of the Pandemic devastation in Europe. However, compared to the last decade this is a new record figure, albeit the number of transactions still slightly lower than 2017 with the second highest transaction volume. A total of 40% of the transactions were foreign buyers. In 2021 the Balearic Islands were Spain's most visited region with over 6.3 million international visitors.

With a substantial rise in transactions there is bound to be a downside, for the buyer at least - according to a study undertaken by the Center for Real Estate Studies at the German Steinbeis Transfer Institute (commissioned on behalf of Porta Mallorquina Real Estate) shows that supply for luxury real estate in Mallorca has declined considerably. And with more demand and less supply that clearly effects prices, which have risen by up to 29% over the past year, which of course is quite concerning for buyer. Average prices in the luxury segment range from €3354 in the centre of the island to €6250 in the centre of Palma, to €7319 in the southwest, with Calvia the second most expensive municipality in Spain to buy a home.

That said, due to the uncertainty in the markets, low interest rates and at the same time rising inflation, it is important for people to find more security for their money in longer-term investments. Real estate is naturally a more stable investment, and over the last few decades property in the Balearics have proven to be extremely stable having experienced significant appreciation over all.

Couple this with the many benefits of

living in Mallorca and it's not surprising that Mallorca is definitely one of the Hot Spots in Europe to buy at this time. Not only characterised by its stunning diverse landscapes, Mallorca has an outstanding infrastructure - accessibility is second to none with Palma Airport being easily reached from almost all cities in Europe, and now even opening up to the USA with direct flights starting recently to New York.

As well as the fabulous climate there are a wide array of recreation options, a diverse cultural offering, 17 international schools, and even more important in this day and age, a high level of safety. Investing in the Island's offering is also important to the Government, with Mallorca pledging to become a role model for recycling and sustainable tourism, with a planned expenditure of 47.4 million euros, to include the eradication of single use plastic, reducing carbon emissions, as well as investment in the construction of a hydrogen plant in Lloseta, with a budget of 50 million euros, going by the name of "Power to Green Hydrogen Mallorca". Other investments include a tram connection between Palma and Palma de Mallorca Airport.

All of these factors mean that the attention of international buyers has been increasingly drawn to Mallorca since the beginning of the pandemic and our island of Mallorca is most certainly becoming the Number One island destination for a second home in Europe.

# HOMES & PROPERTIES

## Actualización del mercado inmobiliario

Las cifras del recientemente publicado informe del Ministerio de Transporte, Movilidad y Agenda Urbana (MITMA) correspondiente al 2021 indican que el volumen de operaciones inmobiliarias en las Baleares ha sido de aproximadamente 6,6 mil millones de euros, de los cuales unos 5 billones corresponden a Mallorca. Comparadas con el 2020, con cifras de 3,6 mil millones (2,7 en Mallorca), representan un espectacular crecimiento del 81%.

En cuanto al volumen de compras de vivienda por extranjeros no residentes, en las Baleares se contabilizaron 4.692 operaciones a finales de 2021, con un incremento notable en el cuarto trimestre -1.626 operaciones. Estas cifras suponen un aumento del 103,73% sobre las del año anterior.

Naturalmente, esto no sorprende en vista de la situación provocada por la pandemia en Europa. No obstante, si lo comparamos con la última década, estamos ante una nueva cifra récord, aunque el número de operaciones sea algo menor que las del 2017. El 40% de las operaciones ha correspondido a compradores extranjeros. En 2021, las Islas Baleares fue la región más visitada, con un total de 6,3 millones de visitantes extranjeros. Este considerable incremento en el número de operaciones lleva consigo una desventaja, al menos para el comprador: según un estudio realizado por el Centro de Estudios Inmobiliarios en el Steinbeis Transfer Institute (encargado por Porta Mallorquina Real Estate), el número de viviendas de lujo disponibles en Mallorca ha experimentado una caída significativa. Y una mayor demanda junto con una menor oferta se traduce en un aumento de precio, concretamente del 29% en el último año, lo cual inquieta a los compradores. Los precios medios en el segmento del lujo van desde los €3354 en el centro de la isla hasta los €6250 en el sudoeste, donde Calvia es el segundo

municipio más caro de España para adquirir vivienda.

Sin embargo, y debido a la incertidumbre de los mercados, los bajos tipos de interés y una inflación en aumento, la tendencia es invertir en activos seguros a largo plazo. La inversión inmobiliaria en las Baleares ha tenido un comportamiento muy estable, con una revalorización importante. Y esto, combinado con las muchas ventajas de vivir en Mallorca, ha hecho que la isla se haya convertido en uno de los lugares más cotizados en Europa para comprar una casa. Además de unos espectaculares paisajes, Mallorca cuenta con unas infraestructuras excelentes, con conexiones aéreas con casi todas las ciudades de Europa, a lo que hay que añadir los recientes vuelos directos con EEUU, concretamente Nueva York.

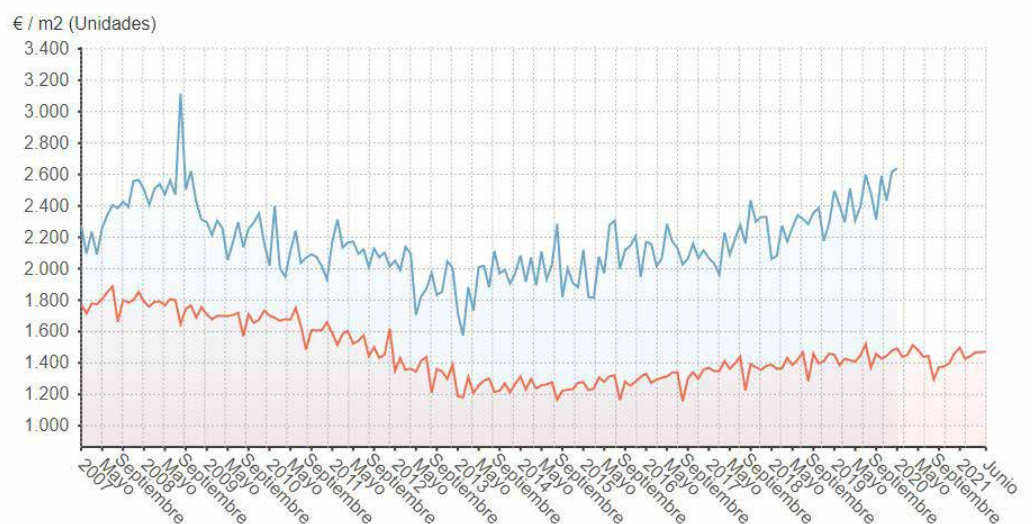

Junto a su maravilloso clima, Mallorca cuenta con una extensa gama de opciones de ocio, una variada oferta cultural, 17 colegios internacionales y, muy importante hoy en día, se trata de un lugar seguro. El gobierno de las Baleares está comprometido con el medio ambiente

y aspira a convertirse en un referente del reciclaje y el turismo sostenible, con una inversión de 47,7 millones de euros destinados a eliminar el plástico de un solo uso, reducir las emisiones de CO2, así como la construcción de una planta de hidrógeno en Lloseta, con un presupuesto de 50 millones de euros, conocida como “Power to Green Hydrogen Mallorca”. Entre otras inversiones está la conexión por tranvía entre Palma y el aeropuerto.

Todo lo anterior ha provocado que el foco de los compradores extranjeros esté puesto sobre Mallorca desde el inicio de la pandemia, haciendo que la isla sea el destino más buscado a nivel europeo donde adquirir una segunda vivienda.

# Annhild - Interior Transformations & Flowers in Mallorca

***With so many beautiful properties on this island, there is a huge demand to make the interiors match the stunning views that surround them. Annhild Ellwanger is an interior designer and florist that works with high-end clients to turn their interior dreams into reality.***

*By Ben Mulvey*

Speaking with Annhild recently, she told me that since we last spoke she has been very busy with plenty of new and exciting projects. One of these projects is to design the interior of some rooms in a lavish €10 million villa in Costa de la Calma. In order to really get a feel for her projects, Annhild visits her clients in their homes and discusses every detail with them to establish what it is they would like the space to become. Colours, fabrics, lighting and surfaces are all talked about before Annhild takes this information and returns to her store in Son Bugadelles to start working on it.

For this particular project, Annhild created a mock-up of each of the spaces that she was working on in her store so that she could visualise how it would look when transferred to the villa. She put together three bedrooms, a kitchen, a living room, and a dining room and spent hours moving things around and trying out different design ideas. Once happy with the design, the client approved it and it was transferred to the property. Of course, one of Annhild's designs would not be complete without the floral and plant arrangements that she has become so well known for on the island. For this house she decided on four bouquets, all made with artificial plants and displayed in large pots that are filled with stones.

"It was a very big project for us to take on. By the time we had installed everything we had walked over 20km in one day - just inside the house!" Annhild says with a smile.

Aside from her projects in villas around Mallorca, Annhild also works with flowers and makes incredible bouquets and arrangements for a variety of different spaces and events. Currently, she is working on table settings for a famous football team, ensuring that everything is perfect for their evening. It is also wedding season so Annhild and her team are busy putting together bouquets, flower arches and arrangements for brides and grooms around the island.

Annhild's beautiful concept store is located in the Son Bugadelles Estate in Calvia and showcases her talent for interior design. Her

flower arrangements take centre stage and make the whole store feel like a magical oasis - a stark contrast to the busy industrial estate that surrounds it. Hundreds of products are on display including candles, teas, coffees and objet d'art that would complement any home. The showroom in Calle Colomer 7, Son Bugadelles is open from 11-4 from Monday to Friday and her new website will showcase all of her products online. ## Annhild – Transformaciones de Interiores y Flores en Mallorca

Con tantas propiedades magníficas en esta isla, la demanda para hacer que los interiores de las casas sean tan bellos como los entornos que las rodean es inmensa. Annhild Ellwanger es diseñadora de interiores y florista que trabaja con clientes de alto standing haciendo realidad sus sueños.

Hace poco estuve conversando con Annhild, quien me comentó que desde que hablamos la última vez está muy ocupada con nuevos e ilusionantes proyectos. Uno de ellos consiste en diseñar el interior de algunas de las estancias de una lujosa vivienda de 10 millones de euros en Costa de la Calma. Para poder captar la esencia de cada proyecto, Annhild visita a sus clientes en sus hogares para hablar sobre los detalles y entender lo que desean para cada espacio. Se concretan colores, tejidos, iluminación y superficies, y Annhild se lleva toda esta información a su negocio en Son Bugadelles para empezar a trabajar en ello.

Para este proyecto en particular, Annhild creó una simulación de cada uno de los espacios en su tienda para poder visualizar cómo

quedaría en la vivienda. Diseñó los interiores de tres dormitorios, una cocina, un salón y un comedor, y se pasó horas moviendo de sitio los elementos y probando nuevas ideas. Una vez satisfecha con el diseño final, fue sometido a la aprobación del cliente y trasladado a la casa. Naturalmente, ninguno de los diseños Annhild estaría finalizado sin los arreglos florales y de plantas que son su sello de identidad en la isla. Para esta casa eligió cuatro ramos, todos elaborados con plantas artificiales y arregladas en grandes recipientes llenos de piedras.

"Fue un proyecto grande para nosotros. Cuando todo estuvo finalmente en su sitio habíamos caminado 20 km en un solo día - ¡solo en el interior de la casa!" cuenta Annhild sonriendo.

Además de sus proyectos en propiedades en Mallorca, Annhild también trabaja con flores y crea increíbles ramos y arreglos para distintos espacios y eventos. Ahora mismo está trabajando en arreglos florales de mesa para un famoso equipo de fútbol, para que todo esté perfecto para la cena. Actualmente es la temporada de las bodas, por lo que Annhild y su equipo están ocupados creando ramos de novia, arcos florales y arreglos para novios y novias de toda la isla.

La preciosa tienda de Annhild se encuentra en el Polígono de Son Bugadelles en Calvia y es una muestra de su talento para el diseño de interiores. Sus arreglos florales son el punto fuerte, y transforman la tienda en un mágico oasis - en medio del polígono industrial en el que se emplaza. Hay cientos de productos tales como velas, té, cafés y artículos de decoración que embellecen cualquier hogar.

El espacio se encuentra en Calle Colomer 7, Son Bugadelles, abierto de 11-4 de lunes a viernes y puedes ver todos sus productos en su nueva página web [www.by-annhild-ellwanger.com](http://www.by-annhild-ellwanger.com). Llama

# ART IS MADE TO BE SEEN

*Art and gastronomy in the Plaza of Algaida. A fruitful collaboration between businesses in the village square and local artist Sylvia Baker de Perkal.*

*By Sylvia Baker de Perkal*

Art is created to be seen, to be enjoyed. This being true, wall space becomes all the more necessary. And in an ideal world, one would hope for wall space in public places, where paintings can be displayed for viewing pleasure and, of course, for sale.

I have been fortunate that three venues in the village square have offered to showcase a selection of my paintings.

The first was Can Sant Café, a lovely restaurant on the corner of the plaza, which became my chosen place to host my first ever exhibition during the Nit del Art of Algaida- the village where I live in Mallorca- in September 2021. The artwork looked so good on their walls that they asked to keep it on permanent display, acting as a sort of impromptu gallery.

The Italian trattoria Pepe Nero and the new Gianduia Gelateria and Creperie, also along the west side of the village square, soon followed suit, with selected works gracing the walls of both businesses.

I am delighted to be able to display my work in what is turning out to be a win-win situation: they get décor and my art gets seen.

## EL ARTE ESTÁ HECHO PARA SER VISTO

El arte se crea para ser visto, para ser disfrutado. Por ello, el espacio en las paredes se torna muy necesario. Y en un mundo ideal, sería perfecto contar con espacio en paredes de lugares públicos, donde poder exponer los cuadros para el deleite del espectador y, por supuesto, para venderlos.

He tenido la gran suerte de que tres negocios en la plaza de Algaida se han ofrecido a exponer una selección de mis obras.

El primero fue Can Sant Café, un bonito restaurante en la esquina de la plaza, que elegí para acoger mis pinturas en mi primera exposición durante la Nit del Art de Algaida – el pueblo en el que resido en Mallorca – en septiembre de 2021. Los cuadros quedaban tan bien en las paredes que me pidieron que los dejara allí de forma permanente, como si se tratara de una galería improvisada. La trattoria italiana Pepe Nero y la nueva Gelateria y Creperie Gianduia, situadas también en la propia plaza, pronto se sumaron a esta iniciativa, exponiendo varias obras en las paredes de ambos negocios. Estoy encantada de poder mostrar mi obra en lo que está resultando ser una situación beneficiosa para todos: ellos decoran sus locales y yo expongo mi obra.

# HEARTWORM

## Something new in the Balearic Islands!

Heartworm (or Filariasis) is on the increase in the Balearic Islands. It has existed in Ibiza for many years but now it has started to spread quickly through Mallorca. But, what is filariasis or heartworm?

It is a parasitic disease which is very prevalent in Spain and the Mediterranean region. It is spread by the bite of a mosquito (mainly the tiger mosquito, which has greatly increased in recent years), which injects microfilaria from an infected dog into a healthy dog. These go to the heart where they form adult heartworms. The adult worms release more microfilaria into the blood.

Initially, there are no signs, and that is why early detection, with a blood test, is needed. Signs that may be seen are weight loss, lack of energy, a cough, and even accumulation of fluid in the abdomen. When the worms build up in the heart it can cause heart failure and death.

For this reason, early detection and preventative measures are so important. In Clinica Veterinaria Bendinat we are running a campaign to find and prevent cases.

Diagnosis involves a quick flow test (which we are all familiar with now!) Treatment, if positive, is very complicated and controlled. So the best way is prevention. Prevention involves the application of an injection that protects for a year, but before this, it is essential to do a SNAP test to make sure they are negative and do not have the disease.

For dogs that show a negative test there are two types of treatment or prevention:

1. Oral tablets once per month
2. Annual injection

### GUSANO DEL CORAZÓN

Algo nuevo en las Islas Baleares

El gusano del corazón (o filariosis canina) se está extendiendo por las Islas Baleares. Ha estado presente in Ibiza durante muchos años, pero ahora empieza a propagarse por toda Mallorca. Pero, ¿qué es la filariosis canina o gusano del corazón?

Se trata de una enfermedad producida por parásitos muy prevalentes en España y en la cuenca mediterránea. Se propaga por la picadura de un mosquito (habitualmente el mosquito tigre, que ha aumentado en los últimos años), que transmite las microfilarias de un perro infectado a un perro sano. Éstas se dirigen directas al corazón, donde se convierten en gusanos adultos, que luego sueltan más microfilarias en la sangre del perro.

En un primer momento no se detecta síntoma alguno, por lo que conviene hacer un análisis de sangre para su detección precoz. Entre los síntomas de la enfermedad están la pérdida de peso, la falta de energía, tos y hasta una acumulación de fluido en el abdomen. Cuando los gusanos proliferan en el corazón, se producen el fallo cardíaco y la muerte.

De ahí la importancia de la detección precoz y las medidas preventivas.

En Clínica Veterinaria Bendinat estamos organizando una campaña para detectar y prevenir casos.

El diagnóstico se realiza con un test de flujo (¡tan conocido hoy en día por todos!)

Si el resultado da positivo, el tratamiento es complicado y controlado.

Por ello conviene prevenir. La prevención consiste en una inyección que protege al perro durante un año, pero antes se ha de realizar una prueba SNAP para confirmar que sigue negativo y no tiene la enfermedad.

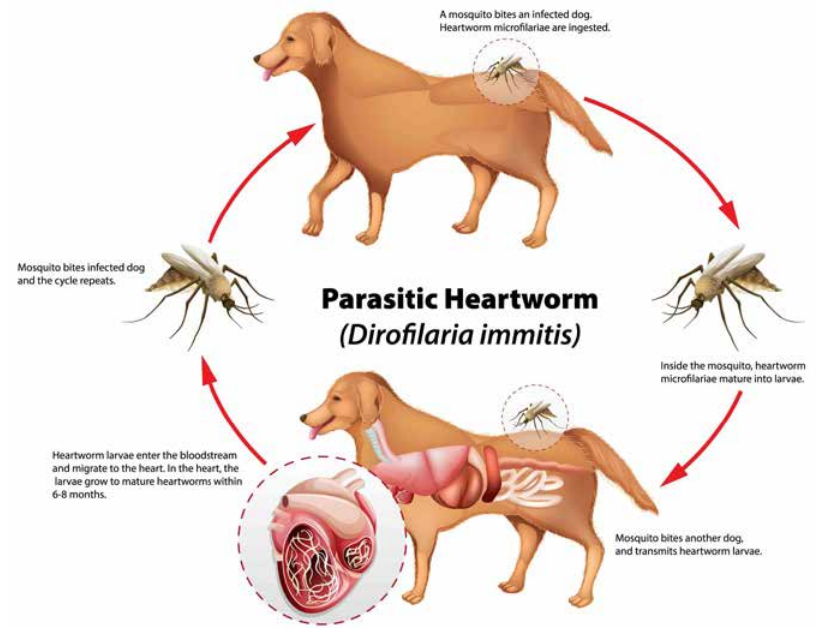

Para los perros que dan negativo, disponemos de dos tipos de tratamiento de prevención:

1. Pastillas orales una vez al mes
2. Inyección una vez al año

# DARRYL LOPEZ: Insurance Made Easier

*It's that time of the month that I sit down with our resident insurance expert and friend, Darryl Lopez from AXA DYLSI Insurance Agency, to find out what new ways there are to protect ourselves and our belongings and all the ways that he can help to make insurance easier.*

By Ben Mulvey

## WHY SHOULD YOU USE AN INSURANCE AGENT OR BROKER?

When it comes to taking out an insurance policy, there are a number of factors that you should consider, not least of which is who you use and who you trust. Many of us in today's age of convenience prefer to go online and find the cheapest deal available in the least amount of time. Online shopping has its time and place but when it comes to something as important as insurance, more time and a more hands-on approach are required. Would you Google your symptoms if you were ill and trust the website's response over that of a doctor? Often people believe that price is a factor but using an insurance agent or broker is no more expensive than a policy that can be found online.

## PEACE OF MIND & SECURITY

Insurance varies greatly from company to company in terms of cover, exclusions, insurance limits and what exactly you are covered for. Having your very own insurance agency allows you to make sure that you are covered for any eventuality and give you the peace of mind that the company will pay out should you have to make a claim. It is important to know that the agent is well versed with the claims process and that you have done your own due diligence on them before you work with them. An agent will also give a more personal touch to insurance and can answer any questions you may have about potential claims or using your various policies. I can personally vouch for Darryl and his team who have attended to my questions personally when I was at the hospital.

## MAKE INSURANCE EASIER

Making a claim is probably the hardest part of working with any insurance company as they often require lots of paperwork and proof that the claim is valid. Having an insurance agency means that they can do this all for you. They are on hand to raise the claim, chase the payment, handle any objections and argue on your behalf if required. An insurance agent will also keep up with any changes in your life or circumstances and offer advice. Perhaps you recently got married, had a child, or your business has grown? Tell your insurance agent and they can update your policies accordingly.

## KNOW YOUR RISKS

Depending on what you do, where you live and your family set-up, everyone needs different types of insurance policies to cover their needs. If you have a business, you require more insurance coverage than perhaps a single person working in an office. An insurance agent will look at the

whole picture and ask you plenty of questions to find out what it is you need. They will then provide you with all the policies that you need to make sure you are fully protected. Often an insurance claim requires a professional to intervene for a second opinion or to justify a claim. An agent will handle this for you - something that customer service on the end of a phone is unlikely to do when we deal directly with the insurer, for instance, or if we shop online.

For all of your insurance needs, always use an agent or broker as there is no difference in price but such a difference in the level of service you will receive. Darryl and his team at AXA DYLSI Insurance Agency are experts in insurance for expats so get in touch with them for a tailored quote to make sure that you, your family, your business or your home is fully covered against any eventuality.

FRONT LINE PROJECT  
WITH SPECTACULAR VIEWS AND DIRECT SEA ACCESS

Two options are available, purchase with project or purchase turnkey completed. This unique property is one of the few front-line properties available in the Southwest of the beautiful island of Mallorca. Not only does this property have the best location but also has history with its previous owners being the very first Bond girl Ursula Andress and the well-known Welsh singer Bonnie Tyler. You can just imagine dipping into the sea following in their footsteps is quite nostalgic.

The unique design influenced by 007 has been created with the owner's good taste, flair and design, having various other completed projects which have been commended for the design and Eco friendly installations.

The price is based on the demolition of the existing building, plans with permission approved and the property will be built, finished and ready to move in. This one of a kind villa will be fully completed to the highest standard with a grade A guaranteed energy efficiency certificate due to the clever design of renewable energy. Modifications can be made to the design if required. Alternatively, if you are more interested in obtaining the land with the licence and executing the constitution yourself, this is a possibility which can be discussed.

Plans available on request.
